## The Woburn Journal

FRIDAY, JULY 15, 1892.

THE JOURNAL is for sale at the stores of Sparrow Horton, 16 Main Street, Charles R. Brown, 146 Main Street, John Connelley, 23, Cummingsville, Samuel E. Wyman, W. A. Hanson, North Woburn, and at G. P. Brown's Winchester.

## SPECIAL NOTICE.

All advertisements, to insure insertion in this paper, must be handed in as early as 10 o'clock on Thursday forenoon.

## MORE LIGHT WANTED.

For an alleged violation of the conditions of his bond the Board of Aldermen recently took steps towards revoking the license of a certain saloon-keeper in this city. The matter hung along and finally City Solicitor Adams was applied to for the law in the case. In due time he responded by submitting to the Board the various statutes applicable to the matter, and wound up by saying that the question of the guilt or innocence of the accused was one of fact for the Aldermen to determine.

On Thursday evening, July 7, the Aldermen voted, with a single dissenting voice (Brown of Ward 1), to let the matter drop, and the saloonist went scot free.

It was a singular proceeding to say the least. At a prior session the Board did not know what to do with the case, as was demonstrated by their appeal to the City Solicitor for help. The opinion of that official shed no new light on it. When they met on the evening of July 7, without further discussion, with exactly the same amount of evidence before them as formerly, the Board acquitted the man almost unanimously!

From what has been heard the prevailing opinion outside the Board was that there were good grounds for the proceedings against this person. To be sure the opinion was based on hearsay, but the Aldermen must have had something more substantial to predicate their action on or else steps would have been taken towards revoking the license.

Now, the queer naturally arises in the public mind, why was this liquor seller let off? What influence was brought to bear on the Aldermen to induce them to take the action they finally did? From nothing immediately preceding the vote on the question was it possible for the public to obtain any light. Evidently the opinion of the City Solicitor had no weight in reaching the conclusion to let the man off. When, then, and by what means was this conclusion reached?

The people, especially the friends of temperance, desire more light on this subject.

## THE HOMESTEAD WAR.

The State troops sent by the Governor of Pennsylvania arrived at Homestead at 9 o'clock on Tuesday morning and at once took possession of the Carnegie Works. They met with no opposition from the strikers, thousands of whom witnessed the arrival and the arrangements made by the soldiers to protect the property of the Company. Possibly there will be no further trouble at Homestead, but if the proprietors insist on filing their Works with non-union men a renewal of hostilities is seriously apprehended. It is as good as settled that no more Pinkerton men will be sent to the scene of conflict, which is a victory for the strikers and humanity. The employment of them was a grave mistake if not a crime and the clamor against it has been so hot all over the country that no more of them will probably be seen near the Carnegie Works. Pinkerton and his men ought to be legally debarred from operating in every State in the Union.

The strikers were wrong as well as the Company. They have no legal or moral right to attempt to dictate to the owners terms on which they would be permitted to carry on business. Much less had they a right to take forcible possession of the Works and commit murder in trying to retain it. They were in the wrong there, and the sooner they and the laboring classes of the country learn that employers have rights which they ought to respect the better it will be for all concerned.

The affair at Homestead was a deplorable one and the end may not yet have been reached. If the Carnegie Company persist in ignoring their former help and employing non-union workmen the war may be resumed. It is to be hoped not. But this much is true, it is purely a labor trouble in which the McKinley bill cuts no sort of a figure, the Democratic whoop to the contrary notwithstanding.

## THE COUNCILLORSHIP.

Hon. Alonzo H. Evans of Everett having given out word that under no circumstances will he be a candidate for the Republican nomination for Councillor, this fall the newspapers in the south-eastern part of the District are already trotting out their candidates in great shape.

In order to prevent undue excitement on their part the JOURNAL would state that Hon. Luman T. Jettis of Hudson will be the Republican nominee and will be elected by an overwhelming majority.

We make the announcement this early for the benefit of all concerned.

In view of the good work done by him in the last General Court, and in conformity to immemorial usage, it is to be presumed that Major Henry C. Hall will be unanimously re-nominated by the Republicans and re-elected by the voters this fall. With a Democratic majority in the District of nearly 2000 he is about the only Republican that can be elected. His standing in the House reflected credit on the community he represented, for which reason among others his re-nomination will be demanded. The old soldiers are for Major Hall to a man.

According to the Herald's forecast Attorney General Pillsbury will be a candidate for Governor this year. The people have done pretty well by Lawyer Pillsbury and he ought to be satisfied. And then again his losing the Crapo campaign will be remembered to his disadvantage. In some quarters if he should enter the race for the nomination. The Republicans will need all the votes they can muster this fall and the candidate who can pull the strongest will be the one to put into the field.

Arbitration is the only solution in sight for settling the Carnegie troubles at Homestead and if the managers of the mills refuse to consent to it so much the worse will it be for them. The strikers will be forced to accept it, so a continuance of the fight and all its evil consequences must rest on the shoulders of the Company.

The Republican members of the House voted solid against the Free Coinage Bill last Wednesday and killed it stonewalled. Enough anti-free silver Democrats voted with them to knock out the pernicious measure in one round. The Nation owes the Republicans a great debt of gratitude for this good piece of work.

Ex-Mayor George F. Bean will probably be one of the Democratic candidates for Representative to the Legislature from the 14th District this fall. We understand that he has already been slated for it. Well, the Democracy might go farther for a candidate and fare a good deal worse.

Cyrus W. Field, author of the Atlantic Cable, one of the greatest men this country ever produced, died at his home at Dobbs Ferry, N. Y., last Tuesday morning.

Monday was a scorcher, and the thermometers shot above 90 mark and people panted.

Mr. George S. Cutler of the Highlands is spending a few days at Greenville, N. H.

For some reason or other there seems to be a good many false fire alarms these days.

There is one place in town where a minor can get a drink and that is at the Central House.

Several Woburn ladies are attending the N. E. Chautauque Assembly at Lakeview this week.

Munroe has sold more straw hats in the last week than ever before in the same length of time.

Having the circus, and 4th of July, almost always come to town about the same time.

Mr. Marshall M. Tidd is rapidly recovering from his late severe illness. He will soon be at work again.

Mrs. Susan K. Ellis and her daughter Josie went to New York next week for a visit with friends.

We should think the Policemen would be glad to shed those homely looking helmets of theirs for the season.

The "electrics" ran as smooth as daisies yesterday on the East Middlesex and Supt. Wentworth was happy.

The July number of "The Doll's Dressmaker" is filled full of pictures and things to delight little girls with.

Rev. Dr. Crawford delivered a powerful sermon on "Efficiency" at the Methodist church last Sunday evening.

The wife of Mr. William Carter of Burlington is very sick. She is the daughter of ex-policeman Michael Welsh.

Doors open to Forepaugh's immense Circus, Caravan and "Fall of Nineveh" at 7 o'clock this, Friday, evening.

Monday: positive hot; Tuesday: comparative hot; Wednesday: superlative, hot. And so on through the week.

Ad. Ham voted with the majority on the Connolly matter at the last meeting of the Board. Go and cut the craze off!

Fred Burnell, when arrested for setting fire to the Abbott barn last Monday, cleared his skirts completely and was released.

Possibly there is a little grumbling on the part of workmen at some of the leather factories here, but no serious trouble is imminent.

The widening of Montvale Ave. opposite the site for the new Armory is a good thing. Pity the whole hill couldn't come down.

Mr. and Mrs. Jacob M. Ellis are entertaining at their fine Salem street home this hot weather Mr. J. T. Upchurch of Waco, Texas.

Gents, secure reserved seats for yourselves and ladies to Forepaugh's Big Circus and Caravan tonight at Gordon Parker's drugstore.

Mrs. Fred Buzgales will visit her husband, manager of the Grand at Mt. Vernon, N. H., about Aug. 1, and remain the rest of the season.

For a week past there has been no more delightful and refreshing picture on our streets than Mr. Frank Nichols's big, bursting ice carts.

Capt. Spear was very kind to supply the JOURNAL office with an abundance of passes to the muster grounds at Framingham this week.

Mr. E. C. Colman of "Woodside" advertises wood and other things for sale in the JOURNAL, this week. Particular attention is directed to his card.

Doyle, proprietor of the tea and crockery store opposite the Orthodox church, is selling bicycles faster than ever. He has sold nearly 50 this season.

The July number of the Musical Record contains several pieces of new music and much good musical reading matter. It is published by Ditson & Co., Boston.

Mrs. C. D. French is passing a very pleasant vacation season at Wilton, N. H., one of the coolest and prettiest places in New England for a summer outing.

Mr. Abijah Thompson of Court street is enjoying his vacation at Rockport on Cape Ann. No man has a better right to take comfort than neighbor Thompson.

Mr. Joseph Dunham of Geneseo, Illinois, who is stopping at the Revere House in Boston, paid the Editor's family a visit a few days ago which was highly enjoyed by them.

The National Band gave one of their very best concerts last Wednesday evening on the Common and notwithstanding the intense heat many people were present to enjoy it.

Tom Feeney of the Herald is taking a bit of a vacation this week. Part sentiment to the contrary he finds that it isn't such a terrible sight harder business than hard work, after all.

News reaches this office over the grapevine line that the Assessors are making good progress and the Collector will have the tax commitment in his hands full as soon as the people will be ready to pay it.

Mrs. Amos Cummings has gone to Newport, R. I., for a vacation. Neighbor Cummings's millinery business must be good to allow the proprietors to take their outing at fashionable Newport.

Mayor Thompson gives in this issue of the JOURNAL a detailed statement of the cost of the Central Square schoolhouse to date, which is the only correct version of the matter that has appeared in print.

Naturally the Woburn K. of L. and other labor organizations in this city feel a deep sympathy for the Homestead strikers in their struggle with Carnegie, the Iron King, and we don't blame them for it.

Thieves broke into the grocery store of Mr. Thomas J. White last Saturday night or Sunday and stole \$5 or \$6 in money from the money-draw. He thinks it was the work of hoodlums, and he was probably right.

The following military gentlemen of Woburn have been in camp this week with the First Corps Cadets: Capt. H. N. Conn, Henry A. T. Dow, John M. Porter, Arthur C. Wyer, Homer B. Grant, John W. Shaw.

The hot weather puts money in the pockets of the street railroad company. A good deal of riding is done afterwards and evenings on both lines for the fun of the thing. It is a very pleasant way to spend an hour or two.

Nichols, the watchmaker, surprised himself by getting up before 6 o'clock Wednesday morning and taking a drive to Reed's ham works in Burlington. We didn't hear whether or not he had to go to bed as soon as he got back.

In an article in the July number of The New England Magazine on "Black Bass Fishing in New England," Horn Pond in Woburn is mentioned as one of the best places of water for those fish. How is it, boys, do they bite good?

Mrs. James Partridge of Union street is visiting her old home at Rockland on the Maine coast where she will remain until towards autumn. The coast of Maine is the favorite annual summering grounds for thousands of people.

Rev. Dr. Gifford, the famous Chicago divine, will preach at the First Congregational church in Winchester next Sunday, July 17, both morning and evening. Perhaps some of our people would like to hear this great pulpit orator.

A racy writer in the Medford Mercury in telling what may be seen in "A Short Journey from Home," in naming some of the beautiful things to be met with says: "public buildings of pleasing architecture like the exquisite Library in Woburn."

Mr. John H. Seaver, of Paine's great Boston furniture house, and Mrs. Seaver are expected to return this evening or to-morrow from a pleasant trip through the States of New York and Pennsylvania. They have been away something over a fortnight.

Forest Hooper, the plumber, says the frost isn't "busting" many water pipes just now and yet business is so lively with him that he hopes to lay by money enough to take him to the beach and back some day towards the last of August. We hope so too.

Miss Angie Fowle, daughter of Mr. Luke Warren Fowle, who represented the First Congregational Church at the recent home missionary convention at Washington, made her official report at the church on last Sunday evening. It was quite elaborate and highly interesting.

Superintendent Newell of the No. Woburn Street Railroad is arranging for removing the track from one side to the middle of the street between the Bedford line and Symmes's Corner.

The way time he will wire the line between those points by electricity, as the change of propelling power will come sooner or later. The Company seem to be waiting at present for the "movement of the waters," and when the sign comes right the "electrics" will come too.

Last Wednesday John Reddy and Frank T. Hogan were fined \$10 and \$25 respectively in the District Court for assault and battery on Chief McIntosh on July 3. Lawyer Curran prosecuted for the government, and Lawyer M. T. Allen defended the boys. The cases were appealed.

Woburn curriers will observe quite generally the sixty days shut down, according to the JOURNAL. Five out of the eight manufacturers will close. "Peabody Press. Good graces!" "Five of the eight," etc! There are nearly 30 leather manufacturing in Woburn.

Last week Mr. and Mrs. Charles H. Taylor of Pleasant street took an outing at No. Berwick, Wells Beach, and regions thereabout "where health and the picturesque abound." Charlie carried his camera with him with the pleasing result of a portfolio filled with beautiful pictures of charming Down East scenes.

At the last meeting of the Board of Trustees of the Woburn Library it was voted to close the library the first two weeks of August, the annual vacation. This need not occasion much inconvenience to the patrons as books can be taken out on the Saturday preceding the date of closing and retained during the vacation.

Dr. N. A. Springer, the popular homeopathic M. D. of this city, has gone to Rangely Lakes for rest, fun and fish. The Doctor has been doing a good deal of professional riding this season and needs rest. Dr. Jenney of Stoneham, one of the best of the school, will take care of Dr. Springer's patients during his absence.

Burbank Relief Corps, 84, had company last Friday evening to whom they did the honors of host handsomely. Their visitors were about 40 members of Corps No. 27, of Cambridge, who met at a cordial reception from the members and passed a very pleasant evening with them. The ladies of 84 are large-hearted and know how to do the agreeable.

A unique volume entitled "Legends of Woburn" by Parker L. Converse is in press and will soon be ready to deliver to subscribers. The edition is to be limited to 400 copies, a quarter or more of which have already been sold, so those who would secure one must apply to the author without delay. A review of the work will appear in the JOURNAL when issued.

Mr. Gilman F. Jones's barge took Trinity Sunday School to Professor Clarke's home over in the edge of Reading last Tuesday where they held the pleasantest picnic of the season. The barge ride was delightful and was spent in the most enjoyable way. Playing games, music and many other enjoyable ways. Prof. Clarke and family gave the school a cordial reception.

The barn and the L. of the house of Dr. Lemuel Abbott on Dragon Court, Buttrick, were destroyed by fire about 9 o'clock last Monday morning, and the firemen did splendidly to save the house. A farm hand was smoking in the barn just before the fire was discovered and it was believed his pipe was responsible for the damage. He charged out when the fire was discovered and did not return. Damage \$1,000.

The Woburn Tariff Reform Club (Free Traders) have reorganized for the campaign with the following officers: President, William E. Davis; Vice Presidents, Julius F. Ramsdell, John W. Johnson, Henry M. Aldrich; Secretary, Arthur E. Gage; Treasurer, Marcus M. Shaw. Where does the Great Interrogation Point come in? Or do the School Board think the Principal of the High School should not be an "Offensive Partisan"?

If nothing splits, electric cars will be running regularly and frequently on the East Middlesex Street Railroad inside of a week. They are doing temporary work on Salem street now just to keep out the heat, but some time next week, Supt. Wentworth feels certain, horses will be discarded entirely and electricity will take their place. It is no fool of a job to make the change and the Supt. has brought it about in remarkably good time considering the amount of work and waiting involved in the business.

Miss Valentine and Mrs. Bridgman are expecting a nephew, Mr. Hall, to reach their home on Court street today and hoping for a long visit from him. Mr. Hall is at the head of the Illinois College for the Blind at Jacksonville, a gentleman well known and favorably known in educational circles in the Prairie State. And his Court street aunts are "Maine people," which is tantamount to saying that they are "the salt of the earth," and it is likely they will visit the old home before the summer is over.

Movements in real estate are satisfactory. Builders are busy and houses are going up all along the line. Mr. George Smith is erecting a residence on Kilby street; Frank McDonald is doing things on Prospect street; Cleveland Ave. continues to improve; and by Christmas a great many new houses can be counted. E. Prior has made many sales lately too. He deals a good deal in real estate. Last week Prior sold a lot of land on Russell street to H. C. Works for \$825; another on same street to James E. Darnody for \$800; house and lot on Cross street to William Schneider for \$1000. He also sold the farming stock and tools of D. S. Foster of Burlington.

Picnicking is very fashionable this season. There have been quite a number of them from here thus far and several more are booked. Generally speaking a picnic yields more misery than the square meal than any other mode of recreation yet devised by human ingenuity. The trip to the bush in the cars is next thing to death by suffocation. The tramp from the depot to the "grounds" in the broiling sun—what could be tougher on the system? The go-to-meeting clothes which we all go to be happy in; the colic that follows the alleged lemonade; the fits of indigestion that get on the cake; the blisters and stoneknocks on the feet; the heat; the fatigue; the blackflies; the well, no wonder picnicking is popular.

John Henry Hutchings, M. D. Ophthalmic and Aural Surgeon, devotes special attention to diseases of the Eye, Ear, Throat and Nose. Glasses fitted and errors of refraction corrected. After Bigger Game.

Hon. Alonzo H. Evans of Everett, Councillor for this district, announces that he is not a candidate for re-election. He was chosen by the Legislature last spring, to fill the vacancy caused by the death of Councillor-elect Charles F. Loring of Melrose.

It is said that Mr. Evans will probably be the first Mayor of the new city of Everett.—Wahfield Record.

The young city of Everett would "do itself proud" by electing Mr. Evans its first Mayor. He is a gentlemanly and well fitted for the honorable position, and it is going to take brains to make the change from a town form of government to the new.

Building Notes.

Mr. Henry Eames has laid out several house lots on Middle street and sold one of them already.—Mr. Fred Burdett has bought a house lot in the rear of Charles street.—W. H. Cummings has sold house and lot on Cleveland Ave.—terms private.

ALDERMEN.

The Board held a closing regular meeting for the season on Thursday evening, July 7.

Petition of Edward W. Hudson for concrete walk on Main and Fowle streets; and Telephone Co. for permit to set poles on Wood street, referred to Highway Committee.

Mayor Thompson sent the following communication, which was accepted:

EXECUTIVE DEPARTMENT,  
WOBURN, MASS., July 7, 1892.

To the Honorable, The City Council:  
GENTLEMEN:—In accordance with the provisions of the City Charter I have the honor to communicate the following information and recommendations respecting the new school building at Central Square.

The financial position of the city with regard to the Central Square school building is in brief as follows:—

There has been expended to date, \$18,046 07  
\$1,120 22  
Total, \$19,166 29

Appropriation by City Council of 1891, \$23,266 19  
Deficit, May 31, 1892, \$3,266 19

Furthermore, in order to put the building into condition for occupation, it will be necessary to grade the lot, and to provide furniture for the schools. I do not advise that the whole lot be graded at once. The most feasible and economical plan in my judgment would be to grade the front of the lot, to purchase enough land in the rear of the present lot to give a proper slope to the level behind the building, leaving the bulk of the gravel to be removed as needed by the city for highway purposes; and to secure in addition a narrow strip from the Wyman lot to the south of the present lot, facilitating the work of grading in that quarter. The cost of acquiring these lots, of sloping the rear and of grading the front and sides will be approximately \$1700.

There will be required for furniture about \$1000.

This sum of twenty-seven hundred dollars (\$2700) added to the deficit in the expenditures to May 31, 1892, give a total deficit of \$5,966 19. I therefore recommend an additional appropriation of \$6000 to be raised by loan.

Our understanding of the reason for this deficit will be clear upon a review of the transactions connected with the construction of the building. The supervision of the matter was by order approved by my predecessor; February 13, 1891, entrusted to a joint committee consisting of the Mayor, two Aldermen and three Councilmen. By orders approved April 29, 1891, the committee was authorized to purchase "a lot of 20,000 square feet of land, more or less, for the construction of a four room brick schoolhouse, in accordance with the plans and specifications of J. Merrill Brown, architect."

AS TO THE LAND  
With Robert B. and Mary E. Eaton a consent for the purchase of a lot of land, containing 20,000 square feet at five cents per square foot, \$1000.00.

AS TO THE BUILDING  
With Singer and Brown, builders, a contract by which the latter agreed for the sum of \$14,950 to furnish all labor and materials for the construction of a four room brick schoolhouse, in accordance with the plans and specifications of J. Merrill Brown, architect.

AS TO VENTILATION, &c.  
A statute required the city to provide a system which should fulfill certain specified conditions of ventilation and should be approved by the State Agent; and the Smead Warming and Ventilating Company was to the Committee the most satisfactory of those which seemed in any way likely to come up to the State requirements. Accordingly a contract was made with the Smead Company by which the company agreed to "furnish and place in position . . . the Improved Smead Warming and Ventilating Apparatus" complete, and the city agreed to pay therefor the sum of \$1475 and further to "follow the plans, specifications and instructions given by the company" concerning the construction of the building for the warming and ventilating and for using the apparatus; and to "do all the carpenter work necessary to set up the said apparatus and construct the building for the Smead System." The proposed extra expense under the last clause was, upon the informal representations of Smead Company, estimated not to exceed \$500.

The committee made the following estimate of the total cost of the building:

Land, \$1000.00  
Building, \$14,950.00  
Warming and Ventilating, \$1475.00  
Architect's fee, \$1000.00  
Grading, furnishing and incidentals, \$225.00  
Total, \$20,645.00

On the basis of these figures, the committee asked an appropriation of twenty thousand dollars, which was made by order approved by the Mayor, September 15, 1891.

A comparison of the amounts of the several items as estimated by the committee with the actual amounts of expenditures and requirements will go far toward explaining the necessity for an additional appropriation at the present time.

## The Woburn Journal

FRIDAY, JULY 22, 1892.

THE JOURNAL is for sale at the stores of Sparrow, Torrey, 105 Main Street, Charles R. Brown, 104 Main Street, John Cummings, 24, Cummingsville, Samuel R. Wyman, W. A. Hanson, North Woburn, and at G. F. Brown's Winchester.

## SPECIAL NOTICE.

All advertisements, to insure insertion in this paper, must be handed in as early as 10 o'clock on Thursday forenoon.

## A COMPREHENSIVE ROAD EXHIBIT.

Mr. Albert A. Pope of Boston has caused to be presented to Congress a memorial in behalf of a "Comprehensive Exhibit of Roads, their Construction and Maintenance, at the World's Columbian Exposition," which has received the cordial endorsement of President Harrison, Members of the Cabinet, influential Congressmen, and nearly all the leading newspapers in the land.

The subject is one of paramount importance and deserves the support and encouragement of all who appreciate, as Mr. Pope does, the necessity of a reform in roadmaking in this country. The movement for a road exhibit at the great Fair, which originated with Mr. Pope and is heartily seconded by the best thinkers on the subject, is in the right direction and will probably result eventually in a saving by the people of many millions of dollars annually and in vastly better highways.

Mr. Pope's memorial to Congress on the subject, a copy of which we have received, contains over a hundred pages of approvals of the scheme for the exhibit and is a valuable document for the light it sheds on the subject of American roads. Our readers will do well to send for copies of it to Albert A. Pope, Boston, Mass.

## THEY HAVE DONE WELL.

The City Assessors have finished their work for the present year and made a report which ought to be in the highest degree satisfactory to the taxpayers.

The rate of taxation is the same as last year, \$15.70 on \$10,000.

When it is taken into account that the city is called on to meet \$8,000 more money this year than last the excellent work of the Assessors will be better appreciated and still more credit given them.

The additional draughts on the City Treasury this year for which the Assessors had to provide consist in an appropriation of \$5,000 for the 25th anniversary celebration; and nearly \$2,000 increased State and County tax, besides a few other extras, which bring the aggregate to \$8,000, and from which an increase of the rate of taxation would naturally be expected.

These additional draughts have been met by the Assessors and the rate kept at last year's very reasonable figure without any perceptible effect on property owners or straining on the part of the officials.

Tax-payers will no doubt feel well pleased with the work of the Assessors this year.

## FOR COUNTY ATTORNEY.

Something of a squabble for the Republican nomination for the Attorneyship of this County is going on although one wouldn't think it from the surface indications.

The present incumbent of the office, Lawyer Cooney, has formally announced his determination not to be a candidate this fall which has brought out some 7 or 8 positive and avowed candidates with several others in the "hands of friends." The most aggressive of the crowd are Weir of Lowell, Allen of Waltham, Travis of Newton, and Peavey of Cambridge, neither of whom, it is firmly believed, stands a ghost of a chance of getting it.

The office is an honorable and lucrative one—quite lucrative in some hands. There is a plenty of hard work attached to it, and its opportunities are nearly limitless.

At the proper time the probabilities are strong that the JOURNAL will present the name of a Woburn lawyer for the office, and that he will win the prize.

## AT THE HEAD.

Last Saturday Thomas Henry Carter of Helena, Montana, was elected Chairman of the Republican National Committee and the leading men of the party say a better choice could not have been made.

Mr. Carter is under 40 years old but as a member of Congress from Montana and Commissioner of the General Land Office he has become acquainted with nearly all the leading men of the Republican party, without which the success of any Chairman would be a matter of doubt. He is credited too with brilliant executive powers and with being a great campaign manager.

President Harrison, it is said, is well pleased with the choice of Mr. Carter and has no doubt that the campaign will be safe in his hands.

## BACKED OUT.

In passing the World's Fair appropriation bill last week the United States Senate made it a condition that the Fair should be closed on Sunday and that no intoxicating liquors should be sold on the grounds at any time. This was a mistake.

But for some reason or other, nobody seems to know why, they reconsidered the matter a few days after and while retaining the Sunday closing condition repealed the liquor selling one, and then passed the appropriation. Which was a cowardly backdown.

If the managers of the Fair pay any attention to the wishes of a large majority and by far the best class of American people the Fair will be closed all day every Sunday during its continuance, and no spirituous liquors will be sold on the grounds.

A goodly number of live, wide-awake Woburn Republicans attended the huge Harrison and Reid Ratification Meeting at Tremont Temple last Wednesday evening and returned with glowing accounts of it. The gathering was immense and the speeches eloquent.

We publish an advertisement of the Boston Herald in our paper this week and take pleasure in calling attention to it. It need not be added that the Herald is the leading newspaper in New England for that is a fact well known to all reading people. We do not admire its politics, or lack of politics, but as a news and literary journal it stands at the head.

—Appreciating the fact that the City Press and we have no affinity for each other the owners have shingled the roof of the building in which the office is located. Which is in accordance with "the eternal fitness of things."

—Mr. Wilbur Cummings started for California yesterday where he will remain during the season. After a residence at Paso Robles seven months he came back home last May on business and has returned for another residence there.

—Considering all things, a new dwelling house a week during the last year was not doing bad, eh? That is what this city did, and yet there are people right among us who would find make themselves and others believe that Woburn is not growing!

—Painters from Marlboro or Stoughton are painting the First Congregational meetinghouse and have the contracts for painting the First Baptist and Unitarian. Local painters are finding considerable fault with the committees for giving the work to outside parties.

—The assignment of Mr. Robert Duncan, leather manufacturer in this city, was announced on Monday. His liabilities are stated at something over \$100,000. He has usually employed about 250 men and has done a large business. The failure will not effect matters here.

—Capt. William C. Parker of Canal street and his friend Councilman O'Connell of Somerville, son-in-law of Mr. B. T. H. Porter of this city, had planned for a nice trip and fishing visit in New Hampshire this week, but the health of Mr. Osgood prevented fruition of the plan.

—At the regular monthly meeting of the Woburn Co-operative Bank held last week \$4000 was sold. At the August meeting the question of the manner of retiring second series shares will come up, so Secretary Whitehead informs us, the action taken effect at the following September meeting.

—A child of Mr. Edward Bond of Dureville, aged less than two years, was poisoned last by poison last Tuesday and camp pretty near dying. It drank some of the water in which the bath was soaked for flies and but for the timely arrival of Dr. Graves the little one would have died probably.

—Last Wednesday some of the Boston papers contained a long and harrowing tale about the alleged elopement of the wife of Mr. Albert Taylor of this city with a nameless youth who was a stranger here, with details and trimmings to match. Not much attention was paid to the story by the public.

—L. W. Cooper is in town on a tour of inspection. He has visited Silver Spring and Newport, got from there to Cottage City and from there to Narragansett Pier. He is looking as if traveling agreed with him.—Taunton Gazette.

—There was quite a notable family gathering at the residence of Mr. Bryan Mcweeney last Sunday. Four generations of Mcweeneys dined together that day, the oldest being Mrs. Margaret Mcweeney, Mr. Mcweeney's mother, and the youngest was Mary, daughter of Edward F. Mcweeney, his nephew.

—As predicted by the JOURNAL, a change of base by the St. Charles C. T. A. S. works to their advantage. They have recently had many accessions. But there are Catholic young men who ought to commend themselves with the Society, labor for its advancement, and thus help along the good cause of temperance.

—Religious services have been suspended at the Unitarian Church until the second Sunday in September. Rev. Mr. Parker, the pastor, has been called to Vermont by the death of his father and the church will not therefore be opened next Sunday for the usual pulpit exercises. Mr. Parker and family will now take their vacation.

—Proprietors of hotels, gardens, etc., at the beaches complain of poor trade so far this summer. They are puzzled to find out the reason for it. One reason is the bad reputation of some of the beaches in the vicinity of Boston. A great many respectable people prefer to go farther away and get into better company than they can find near home.

—The following officers have been elected of Division 9, A. O. U. M.: President, Thomas J. Fox; Vice President, Michael F. Fallon; Recording Secretary, Michael Rossiter; Financial Secretary, Thomas Curran; Treasurer, Thomas Quinn; Sergeant-at-Arms, John Connolly; Junior, Thomas Manly; Finance Committee, William A. Hyde, Michael Meagher, John J. Short; Standing Committee, John A. Shea, John A. O'Donnell, Timothy Ring, Francis Conlon, T. H. Hagerty; Visiting Committee, George Weiler, Thomas H. Manley, John O'Loughlin, Edward Fitzgerald, Michael Flaherty; Substitutes, James Rockford, Henry Finn. Thomas Quinn was elected County Treasurer at the Convention at Malden.

—Forepaugh's circus draw immense crowds to Woburn last Friday. It was a big show and it was never better patronized than here. People came from Winchester, Medford, Arlington, Lexington, Bedford, Burlington, Wilmington, Billerica, Stoughton, Reading, Wakefield, Melrose, Malden, and other places, and street railroads did a big stroke of trade.

—The following persons were duly installed as officers of Ionia Lodge, 86, K. of P., last Monday evening: P. C., B. F. Waldron; C. C., Samuel H. Patten; P., Herbert B. Richardson; K. of R. S., John E. Osborne; M., A. A. R. P. Storey, Jr.; M. of P., Cyrus Cummings; M. of E. W., Frank Fowle; I. G., Daniel Williamson; Trustee, John T. Given.

—Last Tuesday morning Hon. Alpha E. Thompson suffered a shock of paralysis, from which he is slowly recovering. His left side was affected and he has not yet fully regained his vocal powers. Mr. Thompson is well along towards his 77th birthday, but has always been well and active. His stroke was not of a very severe type, but still he is confined to his room.

—Mr. Henry L. Andrews of the News and Mrs. Andrews returned from New Hampshire on Saturday. They accompanied the Press excursion to Mt. Vernon, and then came to Nashua where they remained the rest of the week. Mr. Andrews says the Press Association were handsomely entertained at the Grand Mt. Vernon, of which Mr. Fred Ruggles of this city is manager.

—The funeral of Alderman Edward H. Walsh, which took place at St. Charles Church, where high mass was celebrated by Rev. James Gilday, took place on Saturday morning and was largely attended. Both branches of the City Government were represented by Committees. The pallbearers were: Dennis C. Walsh, Michael J. Hickey, Bernard Mathews, James Burke, Edward James and Patrick Meahan.

—Last week the National Convention of Furniture Dealers held a three days session in New York City. Capt. J. Henry Symonds of Woburn, the Secretary and Treasurer of the Retailers Association, made the opening address. Delegates were present from every State in the Union.

—The "Rockies" held their annual convention with their son, his son-in-law and a superb banquet at the Metropolitan Hotel, at which six hundred people sat down.

—The National Band will give a Concert on the Common Wednesday evening, July 27, 1892.

—Miss S. E. Fisher of North Woburn, a teacher in the Boston schools, left yesterday with a Boston party for a visit to the Rocky Mountains which will consume nearly all the remaining week of her vacation. She and her friends will go to Denver, thence to such points in the "Rockies" as inclination may suggest, including probably Idaho Springs, lying 40 miles due west from Denver in the lap of dizzy mountain peaks and at the foot of the famous Virginia Canyon, in a headlong descent of which, with the "old Hicks" hold of the "Rockies," both General Grant and Horace Greeley were nearly scared to death; and then to Salt Lake and other Western regions. The JOURNAL hopes that Miss Fisher may have a pleasant trip and visit and safe return to her home here.

—Two of Forepaugh's employees came to the JOURNAL office last Monday to find out where the great show was then located or where it would be on Monday night. They had lost the trail and came here to find it. The show was located at the old location and it was curious that attaches of the show should lose all track of it and didn't know which way to go after it. At some point or other, while they were enjoying a little social intercourse with some friends several days before, the circus went off and left them, and although they had searched diligently for it since, they had not been able to find it. While in Boston or somewhere else—just where they couldn't very well tell—they heard the show would be in Woburn Monday and so they came here to see if they could strike its trail. They did not get much information in this city and after awhile they started off on their wild-goose chase again. We didn't hear whether they finally found the circus or not.

—Yesterday was a gala day for the Primary Department of the Woburn Central Methodist Sunday School, of which Mrs. Frances W. Hill is Superintendent. Hiawatha Grove was the scene of the festivities, and a picnic was the form which they assumed. Great activity and considerable excitement prevailed among the small folks in the morning while preparations for the start were underway, which was increased when the barges hove in sight to take the crowd to the Grove. These were soon filled with a merry party of children who enjoyed the drive to the grounds as well as the sports which followed during the day. The latter were varied. They were judiciously chosen. And they pleased everybody. After all, say what one may, a picnic is a picnic, to all intents and purposes, and this was one. That tells the story. Mrs. Superintendent Hill and the teachers got as much pleasure out of it as the pupils nearly, and so all were satisfied from the least to the greatest.

—The attempted arrest of the "old farmer" in Forepaugh's circus procession last Friday by an official Police-man produced dead loads of fun. The agriculturist (1) was a little hilarious and loved he had as good a right to the street as the elephants and things had and he would be doted if he was going to get out of the way for any Woburn Policeman or anybody else. And so he kept on wobbling along with his old piece of crow-bait and rattling wagon and getting mixed up with the procession until patience ceased to be a virtue until the Officer and he made a dive for the bucolic old curmudgeon. He didn't get him though for just then the most tremendous laugh and hurrah broke out from the crowd. The crowd from the throats of 5000 people including the circus crowd, and the Officer immediately began to smell a large sized rat. Everybody was in the secret and knew that the "farmer" was a part of the show except the Officer and everybody was watching for the fun. They got it when the arrest

was attempted and the Officer, as soon as he saw the joke, retired in disgust. Subsequently he tried to make it out that he was in the plot and the crowd were not, but he failed to make his yarn go down. He will be careful how he attempts to arrest a circus "farmer" another time.

—The suspension [Duncan's] is particularly unfortunate at this time for Woburn, adding to the already depressed state of the leather business in this city.—Boston Journal. Rot! The leather business in Woburn has not been in a more satisfactory condition for years than at the present time. Few men than usual are out of work and nearly all the factories are pushing things. In another place in the same report the Journal says: "The immediate cause of the failure is said to be due to the recent arrangement in the leather trade to suspend operations for 60 days, but the constant low prices which have prevailed in the finished leather trade for the past two years, and the great competition in the business, would probably have resulted in an assignment shortly, anyway." That too is bosh. Duncan was one of the first and fiercest for a shutdown or considerable curtailment of product, but has kept right on making leather all the same. An experienced manufacturer told a JOURNAL reporter that Duncan had for some time been losing money on every side of leather he made and failure was the natural consequence. Again, it is not at all likely that Mr. Duncan's liabilities will come within a gunshot of the various figures named in the Boston papers.

—Speaking of fly-paper reminds us of an incident that occurred at Alderbrook last Monday. It was about a sheet of fly-paper that got the better of a cat. The reader may not have observed it but it is a fact that a cat, when things go wrong, is one of the wildest and most unreasonable of quadrupeds. We cannot illustrate the above remark more forcibly than by giving the little incident alluded to. The proprietor, in order to get shut of some of the flies that greatly annoyed him, put a sheet of the sticking fly paper on the window sill and shoved up the lower sash. Just as he was about to gently into the first stage of his customary after-dinner siesta the house cat raised her head from the milk-pitcher and observing a robin fly past made a leap for the open window, but miscalculating the distance between the pitcher and lawn, or perhaps her own dexterity, she landed with all four feet square on the fly-paper and stuck. It didn't take her long to size up the situation, and not more than a minute elapsed before a cyclone struck Alderbrook. The cat was actually crazy. In her desperate efforts to clear her feet from the paper she would jump half way to the eaves of the house, indulging in unearthly yells at every bound; then she tore at the paper with her teeth; rolled over and over; stood on her head; turned double summersaults; all the time screaming like a bedlamite. In less than 60 seconds after the time the cat's head left the milk-pitcher on the dinner table she had assumed the appearance of an animated ball composed of hair, tail, legs, ears and yells, all rolled up and matted together, making 1000 revolutions a minute, and presenting a scene such as is seldom witnessed in this latitude. Perspiring at every pore and remarking that he felt unequal to the occasion, the Granger turned round and heedlessly sat down on another sheet of the same kind of fly-paper, and here, feeling incapable of doing justice to the subject, we ring down the curtain.

**COMMON COUNCIL.**

At a meeting of the Board held on the evening of July 14, in response to a communication from the Mayor, a committee to attend the funeral of Alderman Edward H. Walsh of Ward 7 was chosen consisting of Councilmen Waldron (President), Meagher, Rows, O'Donnell, O'Leary and J. W. Sawyer.

—Mayor Thompson sent in the appointment of Albert A. Ferrin to be Superintendent of Public Buildings for two years, which was confirmed by a unanimous vote.—An order authorizing the payment of Ex-Mayor George F. Bean the sum of \$125 which he expended for legal services in the case of the Rafferty & Martin license last year, failed to pass.

Orders were passed appropriating \$3000 for Water Works; \$6000 for the Central Square School deficiency; for the extension of Water Mains on Central and Middle streets and relating Main on Oak street; also orders authorizing the Mayor to purchase lots adjoining the Central Square School-house, and for alterations and repairs on the old Armory and Municipal Building.

**ALDERMEN.**

At the close of the meeting of the Common Council the Aldermen held a short session.

The appointment of Albert A. Ferrin was confirmed.—A Committee consisting of Aldermen Ham, Dearborn and J. J. Walsh was appointed to attend the funeral of their late fellow member, Alderman Edward H. Walsh.

**Interesting Figures.**  
We are indebted to the Assessors for the following interesting figures. They tell a favorable story for the business management of the city. Taxpayers will regard with feelings of pleasure the rate of taxation which is the same as last year, although more money is obliged to be raised this year than last.

The increase of polls will be a surprise to those who have been crying out about workmen leaving this city for "fresh fields and pastures new." Then 53 new buildings during the year is not more than last.

**BEULAH LODGE,**  
NEW ENGLAND ASSEMBLY.

Miss Barnes met her class in Physical Culture Wednesday, July 13, at 9 o'clock, in Normal Hall; 80 members

eager to participate in the class exercises met her; 20 of them teachers; two divisions were made; at 9 a. m. and 3 p. m., and although the summer

cheated the mercury in the thermometer no member was absent.

We will not crowd your space with all the feasts to which the assembled throngs are invited.

Leon H. Vincent's lectures held in the Auditorium, subjects: "Henry Thoreau," "Charles Dickens," "Robert Burns," &c., equal in value of information months of careful study; and no wonder that clergymen, High School teachers, and educators from every State in the Republic listen with eager attention.

George Makepeace Towle's two lectures, "Queen Elizabeth" and "Victoria of England," were listened to by audiences of from 1500 to 2000.

Prof. J. B. Thomas, D. D., of Newton, lectures daily on Biblical History and is a profound thinker.

The Gold Medal Oratorical Prize Contest was an interesting feature of Thursday's programme. All the New England States were represented by the contestants. The judges awarded the prizes to two young ladies—first from Maine; second Massachusetts. Mr. Demorest of New York, the originator of this method of teaching, was present and gracefully presented the gold medals.

The C. L. S. C. "Round Tables" are a delight, led by Dr. Hurlbut.

The Sabbath quiet at Lakeview is full of rest, and all minds follow the golden cord of religious instruction throughout the day. All gates are closed; those on the grounds are shut in; and the "holy day" is kept as Dr. Vincent at first planned it should be.

Hon. B. B. Johnson, of Waltham, President of Board of Managers, manifests his executive force in the unique management of all branches of the Assembly.

All are looking forward to "International Day" with great eagerness. The distinguished guest of the occasion, the Very Rev. George Mouro Grant, D. D., President of Queen's University at Kingston, Canada, will speak upon "The Mutual relations of Canada and the United States." Mr. Grant is an able writer and orator. He is a native of Nova Scotia, and of Scottish descent.

Booker T. Washington comes today, July 18th. He is Principal of the Tuskegee Normal Institute in Alabama. He speaks upon "The Negro's Way to Liberty." Mr. Washington was born a slave in 1856.

Channey Conn, Charles Rogers and other friends spent the Sabbath here. "Recognition Day" July 22nd.

Mr. and Mrs. Joseph Adams are enjoying sea breezes at Crescent Beach.

Mr. T. F. West and wife are stopping at Hyannis during the hot weather.

Charles E. Peck of Boston is the architect of the new Rumford school-house.

Mr. and Mrs. George F. and Miss M. L. Parker are at Monument Beach.

Miss Sarah Libby and Miss Nellie Kelley are at Woodbine Cottage, Conantocook, N. H.

The remains of the late Hon. Joseph H. Tyler were taken to Pelham, N. H., his native place, for interment. He had been a resident of Winchester since 1870, and was born Feb. 11, 1825.

Miss E. Marston of the Wadleigh school, one of the most popular teachers in Winchester, is taking her vacation at the old home in So. Limington, York Co., Maine. Her pupils hope she will be happy this summer.

Many of our people are away on their summer vacation. W. D. Sanborn and lady and Laurence Sanborn, and Bessie Gay and J. P. Skillings were at the Wentworth, New Castle, N. H., last week. G. G. Stratton, E. G. Crawford and J. J. Crawford were at Old Orchard, as were also Mr. and Mrs. Henry C. Robinson.

Parties of spooning daily visit the beautiful grove-locked Upper Mystic and skim over its placid bosom in pretty skiffs and dories and things and have good times. It is a favorite resort of romantic lovers (who ever saw lovers who were not extravagantly and disgustingly romantic?) and towards sunset on almost any evening the scene is alive with them. According to my idea the Upper Mystic is the prettiest expanse of inland water in Middlesex County.

**Burlington.**

Mrs. W. E. Carter is still very sick.

The Sunday School are agitating the subject of a picnic.

Rev. C. F. Hersey has received the degree of A. M. from Bowdoin College.

The choir of the church are making plans for a lawn party to be held next month on a date to be announced.

Mrs. E. I. Getchell, the organist of the church, has a vacation next Sunday and Miss Nellie L. Sewall will substitute for her.

The Y. P. S. C. E. will celebrate the anniversary of their organization on Sunday, July 31. An address will be given in the morning by a Christian Endeavor worker from abroad and a concert will be held in the evening.

In the single month of May last our exports of four to Cuba were nearly as heavy as the total exports of six months before the new reciprocity agreement went into operation. A political party which can describe the policy which made all this possible as a "sham" is capable of anything.

The sudden change of attitude on the part of the National Senate as to prohibiting the sale of liquor at the World's Fair grounds will be a painful surprise to the country. On Wednesday the Senate voted to make the \$2,000,000 appropriation of \$5,000,000 conditional upon such prohibition. Yesterday by a vote of 21 to 26 it reversed its action. Unless, in response to popular pressure, it again changes its mind, liquor will be freely sold at cafes and restaurants, though so-called bars will not be permitted. The section of the bill which forbids the sale of liquor on Sunday remains intact.

This new position of the Senate in the matter of liquor trade is offensive to the moral sentiment of the country. The Centennial at Philadelphia has been accounted a good deal of a success, yet it was closed on Sunday, and none of the direful consequences which have been predicted if this precedent were followed at Chicago resulted. As to liquor, there is very little likelihood that any people who want it will go thirty miles in Chicago, but it is not an immediate demand that the inclosure devoted to liquor should be kept free from it. The comfort and safety of visitors to the fair, and of women and children particularly, would be promoted if there were no prominent selling of liquor upon the grounds. Doubtless there are saloon keepers who are eager for this business, and doubtless, also, a considerable revenue might be secured from selling this privilege. But there are other arguments than the financial which deserve recognition in this connection. We have an American Sunday which we think is worth preserving, both for religious reasons and because it is a priceless boon to labor. If foreigners like to scoff at our narrowness, we will divert them and will do so with no harm. We shall lose nothing in the estimation of the world if we preserve the spectacle of a sober, Sunday-respecting people.

# Literary Notices.

The numbers of LITTLE'S LIVING AGE for July 9th and 16th contain The French Decadence, Society in Corsica and The Guanches of Tenerife, Carlyle, Skirmishes from Eastern Turkey, and The Yarrow of Wordsworth and Scott, An Over-Administered Nation, and A Noble Lady, Concerning Leigh Hunt, An Episode in the Life of Gounod, Pouch's Understudy, with instalments of "Rosemary for Remembrance," "Aunt Annie," and poetry.

Those who do any substantial reading at all during the summer season will do well to read the August Popular Science Monthly. The number is full of strong interest and excellent matter. It contains nearly 20 papers by popular writers including: Natural Selection and Crime, New Chapters in the Warfare of Science, The Diamond Industry at Kimberley, Social Intervention in Social Economy, Historical Notes on Gold Cure, Families and Dwellings, Variety, The much anticipated Foot of East India, Manufacture of Boots and Shoes, Beginnings in Botany, Michael Servetus, The Royal Society, Sketch of John South Adams (portrait), Editor's Table, Literary Notes, etc. New York: D. Appleton & Company, 50 cents a number; \$5 per an.

The frontispiece of the August number of the ARENA is a portrait of Mary A. Livermore which is accompanied by an article from her entitled "Twenty-five Years on the Lecture Platform." This is followed by a long string of fresh, timely and entertaining papers, among which are: In the Tribunal of Literary criticism, An Idealistic Dreamer who Sings in a Minor Key, four articles on the Pending Presidential Campaign by a member of each party—a sort of political symposium, which will be read with interest; something about Dress Reform, A Woman's Case, Women's Clubs—a symposium in which a dozen eminent women writers participate, and many other good things. The ARENA is rapidly growing in the good graces of the public.

The August Peterson is the finest number we have ever seen of this popular magazine. It opens with two very fine engravings. Some noted Washingtonians are featured in the section. It gives excellent photographs of Mrs. Lieutenant Mason, Miss Kate Deering, Miss Mattie Thompson, and various other society belles, together with a delightfully written biographical sketch of each lady. A Thorough Misunderstanding is a first-class story. A Country Wedding gives many valuable suggestions. Help Up at San Angelo is an exciting tale. An Eighteenth Century Cabinet-Maker gives an interesting account of the celebrated Chippendale, with fine specimens of his work. Ivory-Work describes the new method in embroidery, and the directions for doing it are rendered still clearer by good illustrations. Dorothy's Devices will be worth everything to girls who want to learn how to dress tastefully on limited means. The Hermit of the Hacienda deserves special mention among the stories, though they are all capital. Uses for Odds and Ends shows a fertility of resource amounting to genius. These paragraphs will give an idea of PETERSON'S variety and excellence. Terms, \$2.00 a year; \$1.00 for six months. Address PETERSON'S MAGAZINE, 306 Chestnut Street, Philadelphia, Pa.

## The Woburn Journal

FRIDAY, AUG. 5, 1892.

The JOURNAL is for sale at the stores of Sparrow Street, John Cummings, Ed. Cummings, Samuel E. Wyman, W. A. Hanson, North Woburn, and at G. P. Brown's, Winchester.

## SPECIAL NOTICE.

All advertisements to insure insertion in this paper, must be handed in as early as 10 o'clock on Thursday forenoon.

FOR PRESIDENT.  
BENJAMIN HARRISON, . . . of Indiana  
FOR VICE PRESIDENT.  
WHITELAW REID, . . . of New York

## CHANGE OF PROGRAMME.

Last week we heard with much pleasure of the contemplated change in the curriculum of the High School in this city. There is need enough of it, and it can not come too soon for the good of the rising generation.

The JOURNAL has been saying for some time past that what is wanted in our High School instruction is something more practical than that which the pupils have been getting and with a feeling of great satisfaction that the news of the change is received.

The Committee are on the right track. Evidently they have at last had their eyes opened to the importance of the subject and necessity of a change. Instruction in the High School ought to tend towards fitting pupils for the business affairs of life and to so educate them that when they graduate they may be able to go out into the world and make a successful scramble for existence.

Now that the committee have placed their hands on the plow-handles it is to be hoped that they will cast no anxious look backwards until the good work is accomplished. And in the meantime it wouldn't do any harm to overhaul the primaries and see if reform is not possible in that direction too.

## BLAINE IN IT.

National Committee Manley left Washington early this week in response to an invitation from Blaine to come to Bar Harbor and arrange a campaign for him as he was ready to take the stump for Harrison, Protection, Reciprocity, and the Grand Old Party.

It is understood that Blaine will fire his first gun in Maine where the campaign will open on the 17th instant, and will keep up the music until the victory is won.

There has been and is to be no "sulking in the tent" by Blaine. As soon as he and Manley get times and places fixed he will strip for the fray, and about that time the Democracy will "hear something drop."

## REPUBLICAN STATE CONVENTION.

The 14th of September instead of the 21st has been settled on by the Republicans as the date for holding their State convention and Boston the place. For the State Committee, as usual, have made all necessary preparations. Hon. Charles H. Allen of Lowell is to be President, and Mayor Elihu B. Hayes of Lynn is to be Chairman of Committee on Resolutions. Apparently the selection of candidates was left by the Committee to the delegates.

The rank and file of the party will of course appreciate the pains the Committee have taken to make things easy and pleasant at the convention.

In another column of the JOURNAL will be found a communication from "A Republican" which we think is worthy of careful consideration. The writer is a gentleman well known in Republican circles. From his position and character he is entitled to be heard on the question discussed in his letter. Likewise he writes wisely and his suggestions will commend themselves to the good sense of unbiased Republicans all over the State.

## Job Work.

Job printing is done as neatly, as promptly, and at as low prices, at the JOURNAL office as at any establishment in Middlesex County. Entire satisfaction in quality of work and prices is guaranteed.—J.

—Mr. Frank Nichols lost a fine horse by death last week.

—Cunio & Crowe keep all of the best kinds of fruit that the markets afford.

—Miss Lillie Chamberlain was a visitor at Queen Cottage, Weirs, a few days ago.

—Yesterday was another one of those days which try men's souls. That is to say, it was hot.

—Miss Mary and Miss Alice E. Bancroft are at the Bancroft Cottage, Foster Pond, Andover.

—Miss Nellie McCarthy, the esteemed postoffice clerk, will go off on a fortnight's vacation next week.

—Mr. and Mrs. S. B. Goddard were registered at Poland Springs House, Poland Springs, Maine, last week.

—Attention is respectfully directed to the call of the Chairman and Secretary for a Democratic Caucus published in this paper.

—Mrs. Jennings, proprietor of the old and reliable Intelligence Office, wants to secure girls to fill desirable places at the beaches.

—Mr. and Mrs. Edward L. Shen will return from Maine to-night. They have been visiting Ellsworth, Bangor, Bar Harbor, and all along shore.

—Next Monday Dr. Springer will move into Nos. 8 and 10 Mechanic building—a centrally located, handy and very pleasant office. See card.

—The new timetable on the East Middlesex Street Railway will appear in the JOURNAL next week. Sup. Wentworth says the "electrics" run like daisies.

—Mr. Gordon Parker has a change of card in this paper which is worth reading. It is pleasant to hear that Mr. Parker enjoys a good patronage for he deserves it.

—Mr. Joseph Linnell of No. 133 Montvale Avenue expects to start for Sand Bank, N. Y., in a few days where he will make his outing visit and thus give the seaside the cold shoulder.

—Miss M. C. Messer, teacher at St. George Hall, Summit, N. Y., is visiting with her relatives, the family of Mr. P. E. Bancroft on Franklin street in this city. She has many friends here whose society she is enjoying every minute.

—Manager Lahey and Salesman Grammer are doing a rattling business at Moses Bancroft's shoe store. They built up a show-window last Monday which was about as stylish an affair as has been seen. It attracts passers-by and makes sales.

—At Trinity Church during August there will be a full Choral Evensong with a short sermon at 7 o'clock. These services will afford strangers an excellent opportunity of hearing the beautiful Episcopal liturgy. All will be heartily welcomed.

—Mr. Michael J. McCormack, head salesman at Doyle's Tea and China store, is associated with City Clerk Moreland in getting up the 250th anniversary "Memorial Souvenir." He is meeting with satisfactory success in his work of canvassing for the book.

—Mr. Charles Rosenquist of this city has been chosen the Business Manager of the Scandinavian newspaper published in Boston which until recently had had its home in New York City. The publishers made a wise choice in Mr. Rosenquist for he is a bright, clear-headed business man, and honest through and through.

—The Democrats of this city are contemplating the establishment of an organ at an early day. Several gentlemen of means favor the idea and are willing to put money into it, and have reason to believe that there will be a Democratic newspaper soon planted and retailing its poisonous doctrines here within 4 weeks.

—Mrs. Charles A. Lewis of Chicago came to Woburn last Sunday last Tuesday and is now visiting the JOURNAL's family with whom she will pass a part of her vacation. Her home is at Hyde Park close by the grounds of the Columbia World's Fair in which everybody, east, west, north and south, is more or less interested, or should be.

—James Houston Linnell and his brother Joseph H. Parker, Jr., have just returned from a vacation trip to Cape Cod and a tarry at the sea-swept old town of Orleans, and if no obstacle turns up they will go next week. Orleans, in the bend of the Cape, is favorably situated for summer comfort, of which James and Joseph are expecting to get a fill.

—The rain storm last Sunday did a power of good to vegetation. A rainy Sunday at any time is a delight but when it breaks a long severe drought it is especially welcome. The gentle but beautiful fall of last Sunday was refreshing and agreeable in a high degree and it was with great pleasure one sat at his window and watched it come down or listened to its musical patter on the roof.

—In relating their tracks between Symmes Corner and Medford, the Horse Car Company has made provisions for electricity. It is not believed the company will discontinue using horses until next spring, although the directors this week at a special meeting appointed a committee to make the change as soon they deemed advisable. No doubt the poles will be set and the wires strung during the coming fall.—Winchester Star.

—The National Band will give a concert on the Common Wednesday evening, August 10.

## PROGRAMME.

1. March. High School Cadets.  
2. Overture. Morning Noon and Night. Sousa.  
3. Piccolo Solo. Canby Bird.  
4. By-Jaws. By J. C. McVernon.  
5. Fantasia. From Dawn to Twilight. Smith.  
6. Selection. Freischütz. Weber.  
7. Medley. Popular Airs. Jackson.  
8. Ball of the Hensclop Nights. Laurendeau.  
9. Plantation Echoes. P. C. Adams.  
10. Galop. Thunder and Lightning. Strauss.  
11. The Call of the Wild. D. D. D.

—The Warren Academy Industrial School, Mr. Willis S. Carter, Principal, closed for its summer vacation yesterday with an exhibition of work which was highly satisfactory to a large number of interested visitors. The School will reopen under the same efficient management on August 22, inst. Principal Carter desires particularly to inform the public that applications to enter may be made to him at any time from this date on. The School is in a flourishing condition.

—After a charming bridal tour up the Hudson, through the Catskill Mountains, and to and about New Haven, Mr. Charles A. March and his bride have settled down to steady domestic life at Hyattsville, Md., and gone to housekeeping in the regular way. This is as it should be, and for the future peace, prosperity and happiness the young couple have the best wishes of the JOURNAL, of which the happy bridegroom was once a useful and popular appendage.

—Miss Hall, formerly a Woburn teacher but for some years past a teacher among the Mormons at Salt Lake City, Utah, made a short speech in the last Wednesday evening meeting at the Congregational Church on the invitation of Dr. March, the pastor. What she said about Utah affairs was interesting and instructive. In some respects she could make a favorable report of religious and educational matters there, but there were many things which she could not in conscience paint in roseate hues. The great sin of the territory still exists and although not so rampant as it once was is a menace to the happiness and prosperity of the people. Miss Hall will, we hear, return to her post of duty among the wicked Mormons in due time.

—Mr. and Mrs. F. G. Rundlett, of the Item, packed up every thing in their Norcross car last night, last Saturday, and went to Woburn-by-the-Cummingsville Pond for a fortnight. They are now supposed to be planting chairs under the apple trees of Captain Ellard's farm and watching for crows on the grass.—Lynn Item, Aug. 3.

—And a more comfortable spot than Capt. Ellard's farm at Cummingsville to pass a summer vacation at it would be hard to scare up, or more hospitable people than the Captain and his family.

—Miss Mertena L. Bancroft, the highly educated pianoforte teacher, visited Dr. and Mrs. George S. Dodge at their pleasant home in Acton last week and enjoyed it very much indeed. Early in September Miss Bancroft will visit the White Mts. with a party of friends and remain there some two or three weeks. She will resume instruction of her pupils on Oct. 1, and from that date on to Christmas attend strictly to business. Her prospects for a prosperous school year are good, for in music as in everything else merit wins.

—The party of young men who left here for a fortnight's camp life in New Hampshire a few days ago consisted of Geo. W. Buchanan, Harry Brown, Henry A. T. Dow, Will L. Murdoch, John E. Gilreath, J. Grafton Murdoch, Frank H. Sawyer, and John of Woburn and Henry Doolittle of Malden. Everything that could possibly minister to the comfort and pleasures of camp life was taken along, and if the young gentlemen fail to have a royal good time in fishing, gunning, gumming, blueberrying and resting, it will not be their fault.

—Dr. Frank W. Graves and assistants worked over Mr. John Ross three hours on the evening of July 27 before that gentleman came to sufficiently to realize what ailed him. He is an engineer at the Electric Works where he was seriously hit by the intense heat of that evening and came very near dying from it. He had been perspiring profusely when, all of a sudden, it stopped and in a moment after he fell insensible. He was discovered by a couple of passers-by who promptly summoned and the man properly cared for. It was a close call.

—Rev. W. C. Barrows, pastor of the First Baptist church of this city, and family, went to Rockland, Maine, last Wednesday for their summer rest and recreation. They will be gone a month and occupy while down there Crie Cottage near the wharf which is owned and furnished by a former parishioner of Mr. Barrows's, and as pleasant a spot as there is on the coast. Mr. Barrows preached at Rockland several years and was a native of Ellsworth where he and his family will be among friends and acquaintances while enjoying their mid-summer outing.

—Mrs. Sarah A. Woodside, Secretary of Burbank Woman's Relief Corps, writes to the JOURNAL as follows: Mrs. P. A. Whitten, President of Burbank W. R. C. No. 84, accompanied by a delegation from the Corps, by invitation, visited John A. Hawes Corps No. 3, of East Boston Tuesday afternoon July 26. A very pleasant time was passed notwithstanding the heat, a beautiful collation being served at the close of the meeting. In the evening a reception was tendered Dr. Stone and wife of Atlanta, Ga., who are here in the interest of the Andersonville Prison project.

—Last Friday Mr. Patrick Gynan of Hudson street heroically saved a little child's life. Driving a coal team into a yard the cover of a cesspool was stove in into which Mr. Gynan saw, on happening to glance back, a wee tot of a youngster fall. He instantly seized the child and in the awful moment succeeded in catching it by one foot as it came to the surface, and then he lustily called for help. He was in danger of speedy death as well as the other, for the cesspool was 12 feet deep, but a woman heard his call and repeated it, other women assembled around the pit and soon the man and child were rescued from their perilous situation. There was rejoicing over the escape of the little one and there was a heap of washing and cleansing and perfuming at Mr. Gynan's home after it was all over.

—A few days ago Mr. Albert P. Barrett, Water Registrar, received his Commission as Aid-de-Camp to the Commander and Chief of the Grand Army of the Republic. It is written on parchment, very neatly executed, and has attached to it a great seal of the Society and the autograph of John P. Barrett, Commander in Chief. Naturally Comrade Barrett feels proud of his Commission. He has been a member of the G. A. R. 25 years. Col. William T. Grammer was the first Woburn recruit to be mustered into the Society; Capt. Charles K. Conn, next; and Capt. Albert P. Barrett, third; and among the recruits were a number of each other. These are the oldest G. A. R. Veterans in this city, and although it does not seem half that length of time to them, they have been worthy and loyal members of it just a quarter of a century.

—Officer Thomas Mulkeen is an adept at ferreting out and capturing juvenile thieves. Nearly if not quite all of this class of offenders who have been detected and arrested here in the last several years have come to grief through his skill and efforts. A week ago last Sunday Bishop & Loomer's grocery store was burglarized, and again on the following Wednesday. The case was put into the hands of the Officer who has been successful in years past in catching the youthful depredators and on Saturday he had Joseph Muse and John J. Rowan in his clutches fast and strong. The lady acknowledged their guilt, and told how they proceeded in operating against the store, their method showing grit as well as intelligence. There are a great many very bad boys in this city—many who are on the road to the penitentiary, and Officer Mulkeen has an eye on and is after some of them.

—Councilman James E. Cutler has a theory concerning local road building which looks like a good one. Without casting any reflections on the highway Department he is not altogether satisfied with the condition of the streets in this city and believes they might be easily, speedily and permanently improved. The Councilman places the blame for this at the door of a vicious

system that has been in vogue from time immemorial and which, he believes, should be exchanged for a better and more modern one. Road-making is getting to be a "burning question" in this country. Mr. Albert H. Pope of Boston has caused a memorial in behalf of a National exhibit of road-building at the World's Fair to be presented to Congress and such an exhibit is likely to be made. In due time we will make further reference in these columns to Councilman Cutler's plan and perhaps submit some ideas of our own on the subject at the same time.

—Master Bernard Lynch was surprised last Friday evening at the residence of his parents on Allen street by a party of young friends who presented him with a gold ring. Miss Annie Murphy tendered the ring with a few well chosen words to which Master Lynch briefly responded. The evening was passed in a pleasant and social manner, music being one of the prominent features of the occasion. Several choice selections, both vocal and instrumental, were rendered by the Misses Nellie and Annie Murphy, Maggie McCarthy and Katie McGoff. Refreshments were served of which the young people partook unsparingly and the evening closed with a song.

—Talk about attractive show windows! Upeland & Bowers' "take the cake." Look at the extremely low prices of the quilts, look at those "dimples!" Not many of the young "cyclists" can get away with your Uncle David Ronco, and don't you forget it. Just you wait, boys, till he splits on his hands if you want to see the gravel fly.

—Gregory, as the "Great Lamented" used to say, keeps "pegging away." Land can't help "moving" under the influence of his "hook," which is only another term for enterprise.

—From an advertising contract which has been made with the JOURNAL (the first installment of which may be seen in our business columns) it would look as though the Democrats are getting uneasy, if not absolutely scared.

—H. W. Wadleigh, A. P. Green and George W. Brown have been chosen in investigation of the affairs of Albert Dodge, a few manufacturers, 127 Summer street, Boston, with a tannery in this city. The liabilities are about \$99,000 and the nominal assets about \$80,000.

—Daniel J. Mcweeney and Joseph Shea, chaps, are whiling away the summer days delightfully at Nantasket Beach. The presence down there of a levy of pretty girls, no influence without influence, was on the minds of the young gentlemen in choosing Nantasket for an outing.

—The East Middlesex Street Railway Company were given a hearing before the Melrose Board of Aldermen last night on a petition to construct an electric road from the Highlands to the Wakefield line, and from Main street over Howard street to the Saguenay line.

—Captain C. P. Jayne has returned from a pleasant trip to the West Indies considering the heat here. The trip was a success. He passed very agreeable four weeks principally on the water and is glad he went. It is more than likely that the old man will be back in the fall.

—Mr. B. A. Tripp and other members of the Iron Hall in this city are borrowing no anxiety on account of the recent alleged disclosure of the management on the part of the National Officers. Mr. Edward C. Leathe too feels easy in his mind concerning the situation. These gentlemen and everything will come out all right in the end and no cause for fears exists. This is quite a large branch of the Order in this city and is said to be prosperous and growing.

## Excursion Club to Attend the World's Fair.

If you have any desire to visit the World's Fair, which is held in mind that the United World's Fair Excursion Co. is a sound organization, with ample capital to back up its promises. The company will take the installment plan, refunding all but first payment if you fail to go. Apply to A. Ellis and Thomas Salmon, Grocers, Local Agents Woburn.

## Personal.

Read the advertisement of "Marvello" in this paper.

Chester R. Fowle is having a nice time at Westford.

Mrs. John T. Trull and Mrs. Charles Trull are at North Conway.

Miss E. M. Dow has gone down to Edgartown to board sea breezes in their lair.

Walter Partridge and his father Frank A. are rusticiating in Nova Scotia.

Mrs. Edward L. Shaw and children have gone to North Conway for an outing.

Mrs. Webster Woodman and Miss Hattie Bosworth, teacher, are at Moulton on a visit.

Druggist Lovell is still a widower practically. Mrs. Lovell is visiting relatives in New Hampshire.

Mr. and Mrs. Amos Cummings have returned from Newport, R. I., and are prepared for the fall campaign.

Mrs. Sophia Hovey and Miss Minnie E. Dearth are visiting at Deer Isle, on the Maine coast—a most comfortable summering place.

Mrs. Jacob M. Ellis and children are spending August near Bath, Me. Mr. Ellis went down last week but returned after a few days stay there.

If game in the Maine woods don't take good care of themselves they'll catch it this month when William and Frank Cummins get down there and draw bread on them.

Mr. C. W. Nute and Mrs. Nute have gone on a visit to Union, N. H. Mr. N. is a New Hampshire boy and loves her hills and valleys dearly. We bespeak for them a pleasant visit.

Mr. A. H. Whitford, General Secretary of the Rochester, N. Y., Y. M. C. A., and lady are entertaining his sister, Mrs. J. E. Fowle, and her son Selwyn at their home in Rochester.

Mr. L. Waldo Thompson, Manager of Mr. Leonard Thompson's hardware store, and wife think a great deal of "Away Down East" as a summer resort. At any rate they had a good time.

The Bryant & Stratton Commercial School of Boston, which our readers will notice advertised in this week's issue will reopen Tuesday, Sept. 6. This school needs no recommendation from us, as its present standing and reputation, gained during the last 29 years places it at the head of all schools of a similar character. It can be patronized with full confidence that nothing that is possible to be done for its pupils will be left undone.

## Burned Itself Up.

Speaking of the gubernatorial nomination the WOBURN JOURNAL says: "What has become of that Haile bomb? Only a few weeks ago it was a red hot one and now we hardly hear it mentioned. Where has it gone to?" We presume it got so hot that it burned itself up.—Peabody Press.

Coughing Leads to Consumption. Kemp's Balsam will stop the coughing

## Local Melange.

Mr. Chase Cole has returned from N. H. Charles K. Conn has desirable building lots for sale.

There was another fine rain on Wednesday morning.

There has been considerable dog-day weather this week.

A meeting of the School Board will be held on the evening of Aug. 9.

Mr. and Mrs. Winthrop Hammond are at Hyannisport, a quaint old spot down on the Cape.

Teardownworkman Fowle has commenced to tear away the fronts of Smith's and Gage & Co's stores.

The new Central Square school house has received its fire alarm striker and is now ready for business.

Goodwin & Higley advertise a big reduction on the price of sponges. Sponges are no longer classed among the luxuries—they are necessities of life.

Talk about attractive show windows! Upeland & Bowers' "take the cake." Look at the extremely low prices of the quilts, look at those "dimples!"

The plans for Woburn's new Armory have been received and accepted. They are the architect George S. Wadsworth's and will make a neat, but not gaudy, and convenient home for Co. G, or Mechanic Battalion. Yesterday morning's Boston Globe contained a very good picture of the exterior of the building which was accompanied by a brief description of it.

The contract for erecting the Armory has been awarded to Mr. Wilbur C. Singer, who has done much good work in this city, the price being \$97,000. Mr. Jacob M. Ellis does the interior and underpinning. The Globe's description of the building is as follows:

The structure is to be located on Montvale Ave., at corner of Prospect street.

The principal entrance will be by a vestibule into hall 15x30 feet.

A stairway on the left leads to the second story.

On the first floor will be the uniform room, 17x30 feet, where each member will have a closet. A large room will be for the parade, and it will be adapted for the reception of the Armory's equipment.

On the same floor will be the reception room, and in the rear of it the Armory's and toilet rooms.

On the second floor will be the uniform room, 17x30 feet, with a raised platform at one end, for the enlisted men.

Opposite, on the side facing Montvale Ave., is a room 14x17 for the commissioned officers.

The non-commissioned officers have a room 14x17 in the rear of the latter.

There will be a balcony outside the second floor of the hallways.

In the basement will be apartments for the High School Battalion and there will be the heating apparatus.

At the annual meeting of the Woburn Gas Light Company held a short time since the following gentlemen were chosen officers for the ensuing year: President, Benjamin Hinckley; Directors, Benjamin Hinckley, John Johnson, George E. Gage, Charles Jones, Richard J. Monks; Secretary and Treasurer, Richard J. Monks; Auditors, Frederic A. Flint and Robert J. W. Phinney.

Extensions of mains have been made during the year and others are contemplated. Mr. Curtis Greenwood will lay out the pipes to his cottages on Greenwood Ave., a proprietors of houses on Cleveland Ave., New Boston and Beach streets also want gas; and it is expected that other localities will ask for it soon.

Superintendent John Gilreath says he has put in about 20 gas stoves for domestic use this summer, and it is probable that a hot August will create a demand for more.

The people are beginning to learn something of the comfort as well as economy of gas for kitchen and laundry purposes and the demand for stoves is sure to increase in the future. A gas stove was a positive luxury during the terrible hot spells in June and July, and it is really wonderful how inexpensive they are.

Improvements in residences are still going on apace. W. W. Hill's fine old mansion—"Wheeler House"—is nearly done. J. O. Cummings is painting and slicking up in good style. F. M. Page is enlarging, changing and otherwise improving his residence.

Benjamin F. Fish has been awarded the contract for painting the Congregational church.

Mr. Jonathan Tidd, lately deceased, left a large share of his handsome property to his daughter Mrs. Watson.

In 1891 the increase in property valuation for taxation in this Ward was \$57,543, or nearly \$16,000 more than any other Ward in the city. Good enough!

## The 250th.

The Executive Committee of the 250th Anniversary held a meeting last Monday evening at the Council Chamber.

There were present Mayor Thompson, Leonard Thompson, William Bees, Dr. Frank W. Graves, Francis P. Curran, Parker L. Gove, Elexa G. Proston, William R. Carter, Joseph P. Pollard, John W. Johnson, Edward F. Johnson, B. Frank Walcott, P. E. Bancroft, Edward H. Lounsbury, George F. Bean, John R. Carter.

The Mayor said he had called the meeting in order to determine on two matters of much importance. There was needed a Special Committee on badges, also one on Entertainment.

He said that the Haverhill celebration committee made money from its badges. Leonard Thompson thought the matter might be referred to the Invitation Committee.

Mr. Bean suggested a Special Committee. Mr. Carter wanted to know about designs. The Chair said there would be special designs for each committee.

Mr. Lounsbury described some he had seen. On motion of John W. Johnson, it was voted that the Chair appoint a committee on badges. The Chair appointed Joseph G. Pollard, Phil. K. Richardson, John W. Johnson, Edward H. Lounsbury, George F. Bean.

## REPUBLICAN LEGISLATIVE CAUCUSES.

Several good Republicans of the State are actively engaged in laying plans to capture the shoes of U. S. Senator Daves, whose term expires on March 4 next, and already the contest is warming up in good shape. It promises however to become much hotter before it is through.

In view of this the person to succeed Senator Daves should be selected by a Republican Legislative caucus, and to make that certain the approaching State Convention will be expected to adopt a resolution recommending, or insisting on, such a course.

The rank and file of the Republican party demand fair play. They will ask for a hearing on the matter through their representatives in the Legislature, and in no other way can this be secured except by means of a party caucus.

Probably the aspirants and their friends will heartily favor it. We know of no reason why any should not. Usage and a fair deal demand it. Nevertheless, politics is politics, and unless the State convention adopt such a resolution as we have suggested there is no telling what capers will be cut when the time comes for choosing Mr. Daves's successor.

We have reason to believe that the Republican masses will expect this from their delegates in the convention.

## GUBERNATORIAL APPRENTICESHIP.

There is a growing feeling in the State that the apprenticeship business for the governorship has not worked over and above well.—*Boston Record.*

The above language is obscure but if we catch its meaning the sentiment comes with ill grace from the *Record*.

## FOR CONGRESS.

Up to date the chances seem to be in favor of the nomination of Mr. Francis H. Appleton of Peabody by the Republicans of the Fifth Congressional District.

The opinion generally prevails that Mr. Appleton would fill the bill admirably.

## Republican Headquarters.

The Republican Ward and City Committee opened their new Headquarters in the Savings Bank Block (Room 6) on Monday of this week. Any person wishing to call for political information is cordially invited to do so.—*W.*

## Republican Caucus.

The Republicans of Woburn will meet in caucus to select delegates to all conventions and receive a new Ward and City Committee on Wednesday evening, August 31, 1892.

It is very important that there should be a general attendance at each.—*W.*

—Labor Day comes a week from next Monday.

—Mrs. Reade, wife of undertaker Lawrence Reade, is visiting at Newport R. I.

—Mr. James Leonard Fowle, the old stand-by at G. R. Gage & Co's, is ill of typhoid fever.

—Mayor Thompson is keeping a sharp eye on illicit rumbling and Chief McIntosh is helping him.

—Mrs. P. E. Bancroft of Franklin street is slowly recovering from a very severe illness and hopes soon to be as well as ever.

—Read the call for the Republican caucus in this paper. Then get on your armor, Republicans, and attend them without fail.

—Principal Lewis sets forth an array of facts respecting the Lewis Music School in the JOURNAL this week which will pay for a careful perusal.

—Secretary Whitcher has caused to be published in the JOURNAL this week a notice for a meeting of the Woburn Co-operative Bank, to which attention is respectfully directed.

—Last week the Boston Herald contained an account of an assault with a shovel made by contractor Leonard J. Whipple of Woburn on Andrew Moran of East Boston at Wood Island Park.

—Gregory, the real estate man, keeps right on doing it every day. This week, besides other property, he has sold the Patrick Donovan estate on Hovey st. to Mary McGrath for \$17,000.

—Mr. S. Franksford Trull loves the country, especially New Hampshire country, so the other day he bled himself away to his old stamping grounds at Canaan, where he has no doubt he is enjoying life to the full.

—The JOURNAL employs one of the best political correspondents that Boston can produce. "A. M. B." not only carries a very level head on his shoulders but he is a spicy, racy, readable writer on political themes.

—The proprietors and employees of Calman's shoe stock factory boarded barges at Jones's stable last Saturday and went to the beach where they passed the day most delightfully, including a big fish dinner.

—The Parade and Sports Committees of the 250th Celebration have important notices in this paper to which we call especial attention. Each speaks for itself, and both have a particular bearing on the grand event.

—Mayor E. E. Thompson, Judge E. F. Johnson, Supt. F. B. Richardson, and Clerk E. H. Lounsbury attended the Gloucester 250th anniversary celebration last Wednesday and were guests of the city as Woburn's representatives.

—Every able-bodied Republican in Woburn is in duty bound to attend the Caucus to be held on next Wednesday evening at the different Ward Rooms, because business of vital importance will come up to be acted on at each and all of them.

—Last Monday a horse driven to a tip-cart became frightened by an electric car near Maloney Bros. store and the driver, Patrick Hickey of Wain street, had one of his legs broken above the knee. He was taken to the Massachusetts General Hospital.

—Mrs. D. F. McIntosh, Mrs. Florence Nichols, Master Charles Nichols, Mrs. W. R. Greenleaf and little May are all at Novelty Cottage on Nahant's rocky and romantic shore. The JOURNAL learns that this gay party are having a delightful time down there.

—Principal Carter informs us that the Warren Academy Industrial School opened on the 22d with a highly satisfactory attendance. It is probable however that the number of the pupils will be largely increased early in September when vacation will have come to a close.

—Judge Converse, the Author, will accept our thanks for a copy of "Legends of Woburn," a more extended notice of which will appear in these columns next week. It is a handsome volume. Copies can be obtained only of Judge Converse, 10 Salem street, Woburn.

—The ninth Hartwell Family reunion will be held at Concord, Mass., on the 8th of Sept., in which town a Hartwell settled 236 years ago, and one of his descendants is Mr. Frederic A. Hartwell of this city. He was a promoter of the Hartwell Association and has attended the reunions every year.

—Last Monday a successful operation was performed on Herbert C. Hartwell, son of Mr. Fred A. Hartwell, at the Massachusetts General Hospital, by a bowel trouble. Dr. Chalmers of this city, his doctor, advised the operation, which was performed by the Hospital surgeons. Burt stood it like a Major, and yesterday the doctors said he would soon be at home, although the case is a severe one.

—In the course of a fortnight or less Mr. E. Prior, proprietor of the famous Woburn Department Store, will move from his present quarters into a fine spacious store in Hart's Block, which he has had put into the very best shape for business. In the mean time, to save hauling and loading, he advertises to sell goods at cost, which furnishes a tip-top opportunity for people to buy at the very lowest figures. After about Sept. 5, Mr. Prior will occupy one of the best stores in Woburn.

—Mr. Michael McKay of Chestnut street has sold out his milk route and business to his son Joseph P. McKay, who will carry it on in the future. Gregory's real estate agency handled the matter. From a small beginning Mr. McKay has built up a fine trade and made a handsome bunch of money out of it. Joe has always worked for his father and understands the ins and outs of the business and will probably keep right on with the present economy. Mr. McKay expects to visit his old home in Ireland this fall and may remain on the other side all winter.

—Mr. Oliver C. Bryant, of Paso Robles, California, with his family, is visiting his parents, Mr. and Mrs. O. F. Bryant of Salem street this city, for the first time in several years. He went from here to the Pacific Slope in the early 80s, and finding robust health and good business prospects there, he remained and grew up with the country, so to speak. There are many of his schoolmates and old associates still here from whom, as well as his family, we suspect Mr. Oliver C. Bryant received a cordial greeting on his return.

—A new fender for electric cars, invented by Dr. George P. Bartlett of this city, was tested on the cars of the East Middlesex line at Melrose Highlands last week. The exhibition of its working was witnessed by Supt. Wentworth of the East Middlesex Co., Gilman F. Jones, Supt. Sewell of the No. Woburn Co., and quite a large number of street railway experts and others, all of whom were well satisfied with Dr. Bartlett's invention. The Doctor found that the fender needs improving in a few minor parts, after which a perfect electric car protector will be given to the public.

—In the July number of the "First Maine Bugle" published by the First Maine Cavalry Association at Rockland Me., appears "After Appomattox. No. IV.—Fort Darling," of which Major Henry E. Hall of this city is the author. It is a graphic account of an exciting affair that took place at Drury's Bluffs on the James below Richmond which never found a complete parallel in the history of the Rebellion but was nevertheless one of supreme importance in its results to the Confederate cause.

—Major Hall's description of it received from Major Darling, a Confederate officer, after Lee's surrender, is very interesting.

—Miss Mertena Louise Bancroft stands in the forefront of pianists and pianoforte teachers in this part of the State. She has expended a mint of money on her musical education, the result of which is the highest kind of a rating as an instructor, and a patronage very flattering to her talents and acquirements. She had a rare musical basis to build on and on it has been reared by the most eminent Boston professors a thorough knowledge of the art. Likewise, Miss Bancroft possesses a natural aptitude for teaching, and to this is largely due her signal success. Please read her new card in this issue of the JOURNAL.

—The Celtic Association have good reason for feeling proud of their recently renovated and refurbished headquarters in the JOURNAL Building, for there is nothing of the kind in the city that can begin to compare with them in elegance and comfort. The three rooms have been new floored, painted, frescoed and papered, the ornamentation being the handwork of Mr. C. E. Smith who is famous for his skill and taste in that sort business. New and costly furniture has taken the place of the old; elegant chairs, tables, desks, etc., have been put in; a nice piano stands in the reception room; the toilet and lavatory appointments are perfect; and for either beauty or convenience it is not easy to see how the Celtic's headquarters could very well be bettered.

—Jack McConnell, landlord of the Central House, has a motto. It is: "Always on the Jump." Figuratively speaking, Mr. McConnell "keeps step to the music of the Union." He is "abreast of the times." His latest improvement in the management of the Central House is a Cafe, or restaurant, and enlargement of the table d'hôte. These a great increase in business imperatively demanded. Mr. McConnell having left the store he occupied facing on Main street, it has been thoroughly revamped and will soon be opened as a first-class restaurant, an institution very much needed in this city. Everything will be bang up. Meals piping hot at all hours, and feed equal to anything that can be secured up in Boston. Mr. McConnell's Cafe will become popular for the drop of the hat, and win a big patronage.

—We think it is the duty of the Committee on Street Lights to find out whether the Woburn Electric Light Company are living up to their contract with the city or not. We'll venture to say that there is not another place within 400 miles of here that makes any pretensions to street lights that fares so poorly as Woburn. It isn't only the fact that the light near Church Ave. crossing makes the least effort to illuminate that section, and when it does pretend to shine an old fashioned tallow candle could beat it all hollow. If Waterman Brown didn't take his club and go out and pound the post every night that alleged are light would be a dead letter about all the time, and "Wat." is getting tired of it. If the Electric Company can't do any better, than it has been doing along, back for pity's sake let us return to gas, or if the city can't afford gas let us have kerosene oil again.

—Last week appeared on page 1 of the JOURNAL a poem highly complimentary to Boston written for the Boston Transcript by Eugene Davis who is a bright, thoroughly educated young Irishman travelling in this country and at present visiting friends at the Hub. Last Sunday he was the guest of Mr. Charles O'Neill, late Editor of the Boston Budget, later on the Editorial Staff of the N. Y. Press, and after that, Chief of the Holman's Woburn City Press, and his mother at their cottage on Canal street, this city. Mr. Davis some years ago graduated from Dublin (Ireland) University and subsequently studied several years in Paris with a view of taking holy orders, but this design was abandoned for literary pursuits, in which he is now successfully engaged. It is fair to presume that he and Editor O'Neill, who is also a literary man of more than local note, had a good time down on the grassy banks of Horn Pond last Sunday.

—J. Henry Hutchings, M. D., Ophthalmic and Aural Surgeon, deserves special attention to diseases of the Eye, Ear, Throat and Nose. Glasses fitted and errors of refraction corrected. Office, 51 1/2 Main street. Hours, 2 to 9 p. m. On Monday days, Monday, Wednesday, and Saturday, 2 to 6 p. m. 426 Columbus Ave.

## Fifth Middlesex Senatorial Convention.

There seems to be little doubt as to the outcome of the Fifth Middlesex Senatorial Convention at which will be chosen the candidate who will succeed Capt. E. F. Wier in the State Senate. Many Republicans would have liked to see more vote for Capt. Wier but he declines to again serve as candidate.

—The Celtic Association have good reason for feeling proud of their recently renovated and refurbished headquarters in the JOURNAL Building, for there is nothing of the kind in the city that can begin to compare with them in elegance and comfort. ## Just the Checker.

The time for campaign badges has arrived, and many will wear nice ones or none. Two elegant designs have been copyrighted by the Home Market Club, which produces them in quantities, and limits dealers to a retail price of 40 cents each, or 75 cents a pair. The Club sends both the *Home Market Bulletin* one year for only \$1. The badges are of solid American tin, red, white, and blue ribbon, and a celluloid plate of Harrison and Reid, and they are highly artistic. One bears a flag wheel and "grandfather's hat" with the word "Protection" and the other shows emblems of agriculture and manufactures, and is surmounted by the figure of a mermaid.

Cummingsville.  
Our correspondent (W. H. C.) took a little run around this pleasant part of the city of Woburn a few days ago and found a most hospitable feeling existing among the people everywhere. The change was apparent among all classes, and all believe that the condition of stagnation that has existed here ever since the Cummings leather establishment ceased operations is at last broken and that there is a bright business future for Ward 7.

A gang of men are busily employed getting the Cummings tannery into shape for work by the new proprietors who will change the product to morocco; new machinery is being set up; and if nothing happens the factory will resume operations next week. The new proprietors, at the head of whom is Zeas Sears and sons, with Walker, Oakley &amp

## SORE THROAT

Bronchitis, colds, coughs, asthma, and even consumption, in the early stages, yield to Ayer's Cherry Pectoral. Singers, actors, auctioneers, public speakers, clergymen, teachers, lecturers, and all who are liable to disorder of the vocal organs, find a sure remedy in this wonderful and well-known preparation. As an emergency medicine, in cases of croup, whooping cough, etc., it should be in every household.

## And Bronchitis

It seemed as if I could not survive, all the usual remedies proving of no avail. At last I thought of Ayer's Cherry Pectoral, and after taking two bottles of this medicine I was restored to health. — Chas. Gambini, Smith's Beach, Sonoma county, Cal.

Ayer's Cherry Pectoral. It takes all others. "In January, 1889, I was laid up with measles and scarlet fever, and exposing myself too soon, caught a severe cold which settled on my lungs. I was forced to take to my bed and was so ill that the doctors despaired of my recovery, suggesting me to be in quick consumption. Change of climate was recommended, but I began to use Ayer's Cherry Pectoral, and after taking several bottles, I was cured, so that I am now as well and rugged as ever." — John Dillander, Cranston, R. ## HIS LIVER WEIGHED TWO TONS.

## A Monster Shark That Was Captured off the Coast of Massachusetts.

It is about a big fish that I write, but it is a big story. I saw the fish, took his dimensions by actual measurement and I saw the liver. In the annals of Cape Cod, published by the Rev. Mr. Freeman in 1863, he mentions that in 1803 Provincetown had a regulation relating to the carcasses of whales, sharks, horse mackerels, etc., and that they be towed below low water mark, which would indicate that these marine animals were so common as to be in some degree offensive in warm weather. Many of them were captured for their oil. The big fish was taken in a net, and sometimes 100 barrels, humpbacks 15 to 20 barrels; grampans, 1 or 2 or 3; blackfish, 1 barrel; sharks, from 1 gallon to 7 or 8 barrels; porpoise, 2 gallons, and a boatload of dogfish yielded about 1 barrel of oil.

Now my big fish was called a shark, though he was in form a mackerel, or shovelnose variety. Mr. N. E. Atwood, a distinguished and practical ichthyologist of Provincetown, pronounced the fish a liver shark or sea elephant, and considered it rare. The fish was almost entirely white, and as handsome in form as a mackerel. He was caught in 1862 inside of what is called Long Point, forming an outer boundary of Provincetown's beautiful harbor.

The fishermen had spread their seines there for mackerel and this big fish had got entangled in the mesh, so that he was easily pulled to the shore, where the tide left him high and dry. Being at that time engaged in business in Provincetown, I was invited to visit the monster and see him cut up for the purpose of extracting his liver. I saw the fish, and the oil of a shark is in his liver, while that of a whale, of course, is in his flesh, or blubber. I took a rule and measured this shark and found his length to be just thirty-one feet, the breadth of his tail was seven feet, and his circumference in the thickest part sixteen feet.

The liver of this shark weighed two tons, and this is how it was determined: The liver was cut in pieces and pitched into a dory; the dory carried a ton and a half in weight besides the rowers, as has been proved, bringing her down to her upper streak; the dory was twice loaded deep with this liver, and so the fishermen thought the weight was nearly three tons, but to be within bounds I concluded to call it two tons, and so it is recorded in this various chronicler. I found that the oil had been tried out I found that it made seven barrels full, and was worth at that time \$200.—Belfast Age.

## Small Feet of Boston Girls.

"Contrary to popular opinion the female descendants of the Puritans have smaller feet than those of the Cavaliers," said Mr. William Cooper, junior member of an extensive New England shoe factory. "We manufacture ladies' shoes almost exclusively. We sell most small shoes in the northeast, most large ones in the southwest, in Arkansas, New Mexico and Texas. The Carolinas, Alabama, Mississippi, Kansas and Nebraska also order a good many large sizes. Ohio, Virginia, Kentucky, Maryland, Indiana, Illinois, Iowa and Missouri buy medium sizes.

"The retail trade of large cities requires more small sizes in proportion than does that of smaller cities and villages. Still there is a great difference in cities. Boston is pre-eminently the city of small footed women. Next in the order named come Hartford, St. Louis, Louisville, New Orleans, New York and Denver. Philadelphia, Cincinnati, Chicago, Pittsburgh and Salt Lake City may be classed as big footed."—St. Louis Globe-Democrat.

## A GLORIOUS DEATH.

LESSON IX, THIRD QUARTER, INTERNATIONAL SERIES, AUG. 28.

Text of the Lesson, Acts vii, 54-60; viii, 1-4—Memory Verses 57-60—Golden Text, Acts vii, 60—Commentary by the Rev. D. M. Stearns.

"When they heard these things they were cut to the heart, and they gnashed on him with their teeth." The subject of the rage of the council at this time was Stephen, one of the seven who were chosen men to tabernacle with the apostles might give themselves wholly to the word and prayer (vi, 2-4). But Stephen was so full of the Holy Spirit and faith and power that God wrought great wonders and miracles by him. This led to his being falsely accused and brought before the council, in whose presence he presented a case so strong, recorded in this chapter. He had just accused them of the betrayers and murderers of the Just One, and it was this that cut them to the heart, and made them so angry.

Fixed just right

—Liver, Stomach, and Bowels, by Dr. Pierce's Pleasant Pellets. They do it in just the right way, too—by using Nature's own methods. That's why they're better than the dreadful, old-fashioned pills, with their griping and violence. But they're better in every way. In size, for instance, and dose. They're the smallest and the easiest to take; only one little Pellet is needed for a gentle laxative—three for a cathartic. They cleanse and regulate the system thoroughly—but it's done easily and naturally. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels are prevented, relieved, and cured. They're the cheapest pill you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for value received.

## A PECULIAR CAMPAIGN.

One With Unusual and Picturesque Features.

THE CAMPAIGN OF EDUCATION FAIRLY UNDER WAY.

## Hail's Nomination An Assured Result.

(From Our Special Boston Correspondent.)

No. XXV.

The present campaign bids fair to be a very lively, picturesque and peculiar one. In a recent letter I mentioned the fact that President McKinley for the Republican club had promised to give a campaign flag to every organization that would carry out certain suggestions. He has already had scores of applications, one ardent Republican in the western part of the state having sent in already for eight of them. A picturesque feature will be added by the proposed bicycle campaign clubs. With their "silent steeds" suitably caparisoned and illuminated, the bicycle riders would make as attractive a display as ever did any cavalry battalion of past years. The state campaign committees, too, are discarding the old methods of sending out tons of campaign literature to the voters. They recognize the fact that has been patent to publishers for some time, that you cannot get a man read what you send him, but that you can reach him through some medium he has already chosen. This is strikingly illustrated by the Democratic party's attempt to reach the public by taking advertising space, chiefly in papers of the opposite political faith. This is another tribute to "the power of the press." And yet its effect cannot be largely "negative," as the man read what you send him, but that you can reach him through some medium he has already chosen. ## HIS LIVER WEIGHED TWO TONS.

## A Monster Shark That Was Captured off the Coast of Massachusetts.

It is about a big fish that I write, but it is a big story. I saw the fish, took his dimensions by actual measurement and I saw the liver. In the annals of Cape Cod, published by the Rev. Mr. Freeman in 1863, he mentions that in 1803 Provincetown had a regulation relating to the carcasses of whales, sharks, horse mackerels, etc., and that they be towed below low water mark, which would indicate that these marine animals were so common as to be in some degree offensive in warm weather. Many of them were captured for their oil. The big fish was taken in a net, and sometimes 100 barrels, humpbacks 15 to 20 barrels; grampans, 1 or 2 or 3; blackfish, 1 barrel; sharks, from 1 gallon to 7 or 8 barrels; porpoise, 2 gallons, and a boatload of dogfish yielded about 1 barrel of oil.

Now my big fish was called a shark, though he was in form a mackerel, or shovelnose variety. Mr. N. E. Atwood, a distinguished and practical ichthyologist of Provincetown, pronounced the fish a liver shark or sea elephant, and considered it rare. The fish was almost entirely white, and as handsome in form as a mackerel. He was caught in 1862 inside of what is called Long Point, forming an outer boundary of Provincetown's beautiful harbor.

The fishermen had spread their seines there for mackerel and this big fish had got entangled in the mesh, so that he was easily pulled to the shore, where the tide left him high and dry. Being at that time engaged in business in Provincetown, I was invited to visit the monster and see him cut up for the purpose of extracting his liver. I saw the fish, and the oil of a shark is in his liver, while that of a whale, of course, is in his flesh, or blubber. I took a rule and measured this shark and found his length to be just thirty-one feet, the breadth of his tail was seven feet, and his circumference in the thickest part sixteen feet.

The liver of this shark weighed two tons, and this is how it was determined: The liver was cut in pieces and pitched into a dory; the dory carried a ton and a half in weight besides the rowers, as has been proved, bringing her down to her upper streak; the dory was twice loaded deep with this liver, and so the fishermen thought the weight was nearly three tons, but to be within bounds I concluded to call it two tons, and so it is recorded in this various chronicler. I found that the oil had been tried out I found that it made seven barrels full, and was worth at that time \$200.—Belfast Age.

## Small Feet of Boston Girls.

"Contrary to popular opinion the female descendants of the Puritans have smaller feet than those of the Cavaliers," said Mr. William Cooper, junior member of an extensive New England shoe factory. "We manufacture ladies' shoes almost exclusively. We sell most small shoes in the northeast, most large ones in the southwest, in Arkansas, New Mexico and Texas. The Carolinas, Alabama, Mississippi, Kansas and Nebraska also order a good many large sizes. Ohio, Virginia, Kentucky, Maryland, Indiana, Illinois, Iowa and Missouri buy medium sizes.

"The retail trade of large cities requires more small sizes in proportion than does that of smaller cities and villages. Still there is a great difference in cities. Boston is pre-eminently the city of small footed women. Next in the order named come Hartford, St. Louis, Louisville, New Orleans, New York and Denver. Philadelphia, Cincinnati, Chicago, Pittsburgh and Salt Lake City may be classed as big footed."—St. Louis Globe-Democrat.

## A Brave Man Shrinks.

"How's this? You said you intended to propose to Miss Chawwhopper this evening, and here you are back before 9 o'clock. She surely didn't refuse you?"  
"No, I didn't propose. I concluded to postpone the question."  
"Now, see here, John, if you don't get that girl it's your own fault. The idea of being such a coward. You, who have bravely walked up to the cannon's mouth."  
"Yes, but the cannon hadn't been eating onions."—Exchange.

## The Woburn Journal

FRIDAY, SEPT. 9, 1892.

THE JOURNAL is for sale at the stores of Sparrow Horton, 105 Main Street, Charles R. Brown, 156 Main Street, John Cummings, 24 Cummings Street, Samuel E. Wyman, W. A. Hanson, North Woburn, and at G. F. Brown's Warehouse.

## SPECIAL NOTICE.

All advertisements to insure insertion in this paper, must be handed in as early as 10 o'clock on Thursday forenoon.

FOR PRESIDENT.  
BENJAMIN HARRISON, . . . of Indiana  
FOR VICE PRESIDENT.  
WHEELER REID, . . . of New York

## FOR COUNCILLOR.

From the perusal of a brief article which we lately saw in the Boston *Traveler*, which appears to be the official organ of Hon. Luman T. Jett of Hudson, we judge that that gentleman is an aspirant for the Republican nomination for Councillor for this District. Haring a few words from a friend of his in this city is all the information we have received on the subject.

On the other hand the JOURNAL has knowledge which warrants the statement that Mr. William A. Wilde of Malden will be a candidate in the Councillor convention and make a strong pull for the nomination.

Mr. Wilde is a prominent and influential citizen of Malden and a well-known Boston publisher and has vigorously and aggressively pushing him for the place. It was with reluctance that he yielded to the importunities of his friends to stand for the nomination, but having at last done so he is in the fight to win.

The southern section of the District claim the right of naming the candidate. Mr. Loring having died before taking his seat they say his election ought not to count in the distribution, and their reasoning seems to have force in it. At any rate the delegates from Melrose, Malden and others in that quarter are doing everything in their power to secure the nomination of Mr. Wilde and feel confident of success.

Mr. Wilde, so his neighbors, townspeople and business acquaintances say, is an honest, able man, and would fill the post of Councillor with credit to himself and the State. He has served in the General Court; has held important offices in the Malden City government; is highly esteemed in business and social circles at his home and in Boston; and his hosts of friends believe his nomination is as good as assured.

## HIS LETTER.

Mr. Harrison's letter accepting the Republican nomination for a second term of the Presidency came out last Monday morning. It is a good one.

In it the President discusses exhaustively the issues of the present campaign and proves that the Republicans are on the right side of every question in the controversy.

The letter shows ability and statesmanship of a high order—a very different production from the wishy-washy platitudes that came from Grover Cleveland's pen with such fluency and frequency.

## BLAINE SPEAKS.

A letter from James G. Blaine on the main issues involved in the present campaign has been published. It is a strong one of course.

The tariff, reciprocity and the currency are the three topics of which the letter treats. Blaine says they, and they alone, are the real questions in controversy between the parties. On them the Republican party are and can afford to be aggressive.

The letter is meaty in every line. It ought to be carefully read and studied by everybody.

## SENATOR DAWES DECLINES ANOTHER TERM.

At the end (March 4, 1893) of 36 years in Congress (18 in the House, and 18 in the Senate) Senator Dawes will retire from public life at the age of 77 years.

Last week he wrote a letter in which he declined, without conditions, to accept another election. It was a short epistle but filled with expressions of gratitude to the Republican party for past favors.

Now comes the tug of war!

## IN FAVOR OF LEGISLATIVE CAUCUS.

The JOURNAL was the first Republican paper to insist on a Legislative caucus next winter to select a candidate for United States Senator, and to advocate the adoption of a resolution to that effect by the Republican State convention.

Since its first editorial on the subject many Republican caucuses have been held and at nearly every one of them resolutions have been adopted strongly endorsing such a course.

## TAKE HEED.

The Woburn Board of Health has issued a special notice in relation to the condition of the city in view of a possible visit from the Asiatic cholera this fall, to which notice particular heed should be given at once.

An ounce of preventative is worth more than a pound of cure, and although we have but little fear of the dread disease coming to Woburn, still our Board of Health have acted wisely in promptly issuing sanitary orders.

## STATE CONVENTION.

The Republican State convention will be held at Tremont Temple, Boston, on next Wednesday.

The lesser conventions will follow in due time.

The Republican party are in line for the fight and sure to win the victory in November.

## WHITTIER DEAD.

John Greenleaf Whittier died at Hampton Falls, N. H., early on Wednesday morning, aged 85 years. Holmes only is left of the brilliant galaxy of poets of which Whittier was one of the brightest stars.

## IN IT AGAIN.

When it is considered that Mrs. J. Ellen Foster is a Republican campaign worker for revenue only her employment by the National Committee strikes the average observer as being something droll, to say the least.

## VERMONT.

Last Tuesday the old Green Mountain State rolled up a Republican majority of 18,000, and elected a Legislature of 210 Republicans to 32 Democrats.

—From actual experience we are able to state that Mr. Ervin Hatch of Buttoned plucked green peas from his vines as fresh, juicy and eatable in the last week of August as ever accompanied "spring lamb" at a 17th of June dinner.

—On Labor Day Mr. J. Foster Deland picked ripe, sweet cherries from a tree in his garden and with his family ate them with a good relish. But red ripe cherries on the tree on Sept. 5 is a freak of nature that is seldom witnessed in this latitude.

—Reporter Hudson of the *Herald* has returned and Mr. Johnnie Feeney will turn pencil and notebook over to him on demand. Hudson has been doing Buzzard's Bay for the *Herald* all summer, and Feeney has filled his place at home in a frigate shape.

—Gage & Co. have shelled the finest stock of fall and winter suitings, overcoatings, trousers, etc., ever shown in Woburn. And Mr. Atwood, the cutter, is putting them into clothes that for real style and fit can't be beaten by New York or Boston.

—Next Tuesday evening the John Thomas Opera Company will hold forth at Lyceum Hall. They will give the public a most entertaining and all that will enjoy. They come admirably recommended and we have no doubt at all but that they are first-class.

—Recently James J. Corbett, who whaled John L. Sullivan at New Orleans last Wednesday night, was given a reception in this city by a party of his admirers, and promised to attend our 250th Anniversary celebration. He is a cousin of Mr. James McGrath, the Woburn merchant.

—Last Saturday this office was favored with a call from Mr. Thomas Stedman Carter of Hudson, a twig from the Carter Family Tree of Woburn, who was on his first visit to this place since the great Carter Family Reunion some 6 or 7 years ago, which he attended and greatly enjoyed.

—Mr. Hubbard Copeland, senior partner of the popular dry goods house of Copeland & Bowser, and wife started on their regular vacation last Monday. They have taken little runs hither and yonder all summer, but this is the genuine annual outing of that estimable pair. They went to New Hampshire and will make a fortnight's job of it.

—Mr. Jacob M. Ellis, contractor, is full of business this fall. He has a crew of twenty men building a big railroad bridge near Essex Junction, Vt.; another crew rebuilding the railroad bridge at No. Somerville; and another still on a similar job at Lowell.

—Mr. Ellis is one of the largest stone-work contractors in the State and on his numerous jobs employs a great many men and horses. Mr. Ellis F. Hayward is Mr. Ellis's bookkeeper.

—The National Band will give their last concert on the Common Friday evening, Sept. 16, and hold a dance in Lyceum Hall after the concert.

PROGRAMME.

9. March. High School Cadets. Sousa.  
10. Song.

—The Wilmington Farmers and Mechanics Club will hold their annual Fair and Cattle Show on Thursday, Sept. 22, as will be seen by their advertisement in this paper. It is needless to inform the people of Woburn that the Club's annual exhibition has been an important agricultural event in this vicinity for years for it is visited by scores of them every fall and they always have a great time. Read the announcement and be sure and get some of the dinner.

—Where are our local poets, poetasters, and rhymers? The Celebration Committee on Literary Exercises. Mr. Herbert B. Dow, Chairman, advertise for an Ode and a Hymn, for which it is intimated, a good price will be paid. We have in our mind's eye a baker's dozen of Woburn people who could, in a trice, scribble out a good one and our surprise will be great if there is not a big rush for it. Any person living in, born in, or connected with Woburn may compete.

—A recent issue of the Washington, D. C., *Evening Star*, a copy of which is before us, contains a half-column fine type article on "Brown as a Punctor" written by "C. A. M." which is short for Charles A. March, a promising young gentleman well known in this city and now a Department employee at Washington.

—"Charlie" acquired the art of English composition, including punctuation, in the JOURNAL office, which is tantamount to saying that he "can't be beat."  
—The Woburn party organized by Miss Tibbets to attend the National Encampment of the G. A. R. at Washington, D. C., on Sept. 29, is filled and ready to go. They will leave Boston on the 18th and be gone a week. The price for round trip tickets has been reduced to \$12, and Miss Tibbets has made very favorable arrangements for the accommodation of the party in Washington. She has had a large number of applications in addition to the 16, but has declined them. Her party will be a jolly one.

—Rev. Hugh Montgomery was summoned to No. Woburn last Tuesday to attend the funeral of a former parishioner of his and while here dropped into the JOURNAL office to shake hands with his old co-worker in the temperance cause. He was as bright as a dollar, gleeful, and hopeful, and battling for the right as valiantly as ever. He left with us a copy of *The Enterprise*, a weekly publication devoted to religion, temperance, and good works generally, which was filled with nourishing food for the soul, and no doubt destined to become a powerful agency for good. What with the hosts of rum-sellers, rum-sympathizers, and sinners generally up there, our old friend Montgomery has all he can attend to at his new post in Lowell.

directions, that the country had undergone since his last visit to it a few years ago. Everything was changed. Denver had grown out of his knowledge; Colorado Springs had sprung up; and assumed respectable dimensions; large, flourishing towns were found far up in the heart of the Rocky Mountains; Salt Lake City had grown into a great, prosperous city; the boundless prairies, over which only a few years ago roamed at their own sweet will the buffalo, elk, and Indian, had been transformed as if by magic into farms and happy homesteads; schoolhouses and churches were seen on all hands; and everywhere life, enterprise, activity and prosperity prevailed. Possibly Mr. Gerrish will pitch his tent permanently somewhere out there before long.

—Mr. Charles Cummings, the wide-awake and prosperous farmer at 35 Cambridge St. in this city, has demonstrated beyond the least doubt that the very finest of peaches can be raised in abundant quantities in this section of country. Fifty years ago there were very few farms in Middlesex county but on nearly every farm were large flourishing peach orchards, the yield of which equal in size and flavor to any now raised in Delaware, and were a source of profit to the cultivator. They however finally died out and after a time peaches came in to largely fill their place. Now it looks as though there was to be another turnabout or at least that the luscious peach is soon to be in standard.

—Cummings has a fine orchard of them on his plot of farm from which he has had a handsome yield this season. Better or fairer peaches never grew anywhere. Last Tuesday he marketed 74 bushel of them and on Wednesday nearly as many more. They met with quick sales at excellent prices and paid Mr. Cummings well for his investment and labor. And he has shown too that it is no trick to raise the finest of peaches here extensively and with profit if one only knows how. We sampled his fruit and found it superior to the product of Southern peach orchards.

Baseball.  
The Anniversary Committee on Sports have offered prizes of \$55 and \$35 to the winners of matched games of ball to be played on Anniversary Day. The following players have entered for the prizes:

Ward 1—Patrick McLaughlin, Richard Hogan, Thomas Beatty, Thomas Weir, Thomas Mulhearn, Edward Lyons, Patrick Kelly, James McMurphy, Thomas Lough, Brian Flaherty, John Sweeney, John McDonald.  
Ward 2—John Sweeney, John French, Thomas Roach, Michael Roach, Charles Brady, Edward Brady, James Brady, Simon Joyce, Michael Flaherty, Edward Murphy.  
Ward 3—John F. McSweeney, Daniel Matthews, M. Joseph Matthews, Joseph Larkin, Owen Roddy, William E. Mooney, David D. Beggan, Percy Lincoln, Henry Rooney, Edward Duffy, Frank McKirry, Daniel P. O'Brien, Frank J. Collins, Thomas Wolfe, Thomas Weir, William Ross, John Howard, George Day, Frank Connors.

Ward 4—John Madden, John D. Doherty, James Doherty, Edward Doherty, John Doherty, Edward Madden, Daniel F. Doherty, James McLaughlin, Joseph F. Doherty, James E. Doherty, Patrick H. Doherty.  
Rev. C. H. Parker, pastor of the Unitarian church, performed the rites and ceremonies which made them twin one flesh in his usual easy, light, and at the same time, thorough manner.

The wedding was a private one, only the father of the bride, Rev. C. H. Parker, and a few friends being present to witness the exceedingly pleasant affair.  
At the close of the nuptial ceremonies an elegant table d'hôte spread, prepared by the bride's parents, Mr. and Mrs. W. H. Matthews, was partaken of by the party and highly enjoyed.

Mr. and Mrs. Ramsdell left on the same evening for their future home, No. 53 Tufts Street, Prospect Hill, Somerville, where a house, all ready for them, and ready for their mistress, awaited their coming.  
The bride has many warm friends here who congratulate her and wish her much success in her new life. She is a most promising young woman in Somerville. A long life and a happy one to Mr. and Mrs. C. H. Ramsdell, say we.

City Government.  
ALDERMEN.  
A meeting of the Board was held last week Thursday evening. The orders appropriating \$20,000 for new Armory and Court House, and \$1500 for Water Works Main were passed. Alderman Dearborn offered an order, which was referred to the Highway Committee with full powers, authorizing the North Woburn Street Railway Company to relocate its tracks above Baldwin's to the centre of the street.

Shot Them Up.  
ED. JOURNAL:—It is to be hoped that every effort will be put forth to restrain the liquor traffic during the days devoted to Woburn's Anniversary, Oct. 6 and 7. We certainly do not wish to proclaim to the world that rum-selling is one of Woburn's major industries. His Honor Mayor Thompson, to relocate its tracks above Baldwin's to the centre of the street.

North Woburn.  
Mr. and Mrs. Marshall Tidd returned from their summer vacation, which they passed delightfully among the Granite Hills, last Friday. At the hotel where they boarded in Pittsfield, N. H., were some 25 or 30 Boston and Cambridge ladies and gentlemen whose society our North Woburn friends enjoyed, and besides that, there was no oppressive hot weather there, the whole summer being exceedingly comfortable. Mr. Tidd's health has improved considerably during the season.

Then and Now.  
In 1867 Mr. Gilman F. Jones at this place entered into a contract with the U. S. Government to carry the mails between Boston and Lowell six times a week each way for a certain sum per annum. The reason for this was a disagreement as to the price of carrying it on the Boston & Lowell Railroad between Supt. Stark and the Postoffice Department.

Mr. Jones conveyed the mails from Boston to Woburn every morning in the week, Sundays excepted, with one horse, which he here exchanged for a pair and a small barge for the purpose of carrying passengers between Woburn and Lowell. His contract called for a delivery of the mail in Boston sufficiently early each afternoon to connect with the New York train. Mr. Bent was Postmaster of Boston, and John Lewis, one of the head men in the office, laid out the mail route between the two cities.

Mr. Jones has preserved his contract with the government as an interesting bit of history of the mail service of Lowell, by which taken it deserves a safe place among the curious things in our Public Library.

Just think of it, gentle reader! Only 25 years ago—a mere handbreadth of time as viewed from the standpoint of three score years and ten; two years after the close of the Great Southern Rebellion, there was a United States mail between the great city of Boston and the largest manufacturing city in America only once a day each way, and on Sundays none! It was hauled over the route 25 miles with a one and 2-horse team, and Mr. G. F. Jones's contract called for a compensation of \$2,300 for carrying it.

By way of contrast:  
Mr. Jones has a contract at the present time to take the Boston Sunday *Globe* at the publication office and deliver them at the news depots, in season for morning distribution to customers, in Everett, Malden, Melrose, Wakefield and Reading, in which he employs a 2-horse team; and in Somerville, Medford, West Medford, Arlington, Winchester and Woburn, which takes a one-horse team to carry. The two loads weigh about two tons. This, mind you, is the weight of the Sunday *Globe* that go to the places named above. Other contractors carry the Boston *Herald*, the number and weight of which going to the localities named we do not know.

The drivers of these teams go to Boston Saturday night; put up; and are on hand for the loads as soon as they come from the press.

Mr. Charles R. Brown, who handles the Sunday papers in this city, orders 1,100 copies of the *Herald* and *Globe* each Sunday; North Woburn has about 50; and the Highlands probably about the same; making a total of not less than 1,200 copies of the two Boston Sunday papers each week.

These figures furnish a text on which the clergymen of Woburn might preach strong and effective sermons.

Those Trees.  
ED. JOURNAL:—A good deal of interest is being manifested in the changes in the line of Main street above Central Square, involving as it does the destruction of trees which have been some forty years in reaching their present growth. If there is no possible way to save these monarchs which are the pride and glory (or should be) of the city, it is the least that can be done to start other trees to replace them. Show the authorities in suburban towns instead of treating trees as one of the special attractions of the place tending to draw people from the city to the country, seem to have a special spite against them and hack them down ruthlessly whenever the opportunity occurs. A large dead tree has disfigured Main street opposite New Boston street for some time past, but it never seems to have occurred to anyone to replace it with a thrifty specimen. It ought to be remembered that a high state of civic efficiency fosters taste and energy in the citizen and produces a condition of public opinion which can be relied on to support all wholesome and equitable legislation.

Wilmington.  
The Annual Fair and Cattle Show of the Wilmington Farmers and Mechanics Club will be held on Thursday, Sept. 22, for which extraordinary preparations are in progress. Everything points to the best Fair the Club ever held. Special features have been decided on by the Club which cannot fail to attract unusually large crowds. The Club's fair-dinners have become famous all over the county and this year it is going to be more bang-up than ever.

A Woman's Back.  
It is the mainspring of her life.  
What can she do, where can she go, so long as that deadly backache saps every particle of her strength and ambition?

She cannot walk, she cannot stand; her housework is a burden; the hours behind the counter or in the factory are crushing; she is miserable.

The cause is some derangement of the uterus or womb. The backache is the sure symptom. Lydia E. Pinkham's Vegetable Compound is the one unfailing remedy. A woman discovered it and gave it to women. A woman reads your letter and gives you a woman's sympathy and help. Thousands send letters grateful for physical salvation. The same salvation is for you.

It looks as though our own Lawyer McCall is sure to make connections and to Congress this hitch. He is a good deal better man for it than any that have been named and most of the Republicans of the District think so judging from the cancanes.

TAKE WARNING!

NEGLECT NOT THE SIGNALS OF DANGER.

An Object Lesson Taught by the Indians.

Let the Way be Simple and the Remedy Safe.

If you are ailing, not exactly sick, but not feeling "right," (having, drowsy, dull feeling, bad taste in the mouth, variable appetite, occasional pain in the joints, muscular aches, and other signs, depending thereon, which you may or may not be able to describe, but which you feel are the result of the system by the judicious use of your vegetable remedy.)

Do not neglect such warnings.

That pain in your shoulder may develop into rheumatism, and a month's sickness may develop into the income of your life.

What could you do then?

Think of your business, your income, and your family.

What safety as you would fly from cholera or smallpox.

You are in danger if you neglect these warnings.

They may pass off, but the chances are against you, and even then the poison is only latent in your system.

Do not, however, put your trust in the numerous so-called "Sarsaparilla" with which the market is flooded. Sarsaparilla is not a medicine, it is a poison, and it is a poison that will destroy the system, and it is a poison that will destroy the system, and it is a poison that will destroy the system.

## THE TREMONT.

## YOUR COUGH

Has not yielded to the various remedies you have been taking. It troubles you at night and breaks your rest and reduces your strength. Now try Ayer's Cherry Pectoral, before the bronchial tubes become enlarged or the delicate tissues of the lungs sustain fatal injury. As an anodyne and expectorant, this preparation has no equal. It soothes the irritated membrane, promotes expectoration, and induces repose. The worst cough.

## Can Be Cured

by the use of Ayer's Cherry Pectoral. Dr. J. G. Gordon, Carroll Co., Va., writes: "I use Ayer's Cherry Pectoral in my practice, and pronounce it to be unequalled as a remedy for colds and coughs."

"After the grippe—cough. This was my experience—a hacking, dry cough, with an incessant tickling in the throat, keeping me awake nights, and disturbing the household. I tried a great number of cough-cures, but they gave me only temporary relief. At last I resorted to Ayer's Cherry Pectoral, and before I had used half a bottle, I had my first all-night sleep, continued to improve, and now consider myself cured."—A. A. Sherman, Coeymans, N. Y.

## By Using

Ayer's Cherry Pectoral, many have been saved from fatal illness.

E. D. Estabrook, Canterbury, N. H., says: "In the winter of 1891 I was a surveyor of lumber in Sacramentos, Cal. Being considerably exposed, I took a cold accompanied by a terrible cough. I tried several remedies, but they failed to cure me, and I was thought I was going into a decline. On the advice of a friend, I began to use Ayer's Cherry Pectoral, and in less than half a bottle completely cured me."

## A HARMONICON FIEND.

How He Flourished for a Season, but Was Silenced by a Girl.

It is a peculiarity of the harmonicon habit that it deadens its victims to the rights of others. It is estimated that only one person in every million, outside of the victim of the disease, enjoys the alleged "music" of the harmonicon. Yet it may be noticed by an observant person that a harmonicon fiend will throw all the force of his invariably robust nature into playing "chimes" every time he gets into a room.

One of the outlaws boarded a Third Avenue elevated train at One Hundred and Twenty-ninth street one evening recently and promptly began "entertaining" the other passengers. An elderly man, after enduring the evident agony for awhile, remarked, "Young man, will you please desist! That noise is very annoying."

"Noise!" roared the fiend. "You don't know nothing about music. Well, I ain't 'er goin' ter stop. See?"

The elderly man evidently realized that further remonstrance was vain and said nothing. At the next station a well-dressed young man, accompanied by a lady, boarded the train, and at once both of the new passengers began showing annoyance at the noise, which prevented the continuance of their conversation.

The young man finally appealed to the "musical" man, and called attention to the fact that several passengers had been driven from the car. The guard cast a severe look at the scowling passenger and remarked: "Why, he ain't doing no harm. He only wants to be a little bit sociable."

Other passengers also appealed to the guard, but with no better result. At last the young man approached the fiend and said: "My friend, that may be very sweet music to you, but the other passengers prefer less noise. Won't you please stop it?" The fiend grew as angry as though one of his constitutional privileges was attacked, and addressed profane language to the man, loud enough for all of the passengers to hear, and then resumed his campaign of torture.

The passengers were very angry, but did not care to get into what promised to be a fight with the fiend. Over in the corner of the car sat a girl about sixteen years old and by no means robust. She seemed to pay but little attention to the controversy. When the other passengers settled themselves down to endure the torture as best they could, the girl got up and walked over to the harmonicon fiend.

"I can lick any man myself who has no more sense than to try to drive people crazy with such a racket as you make," she said to the fiend, and before he had recovered from his astonishment she grabbed the harmonicon and hurled it through an open window and then resumed her seat in the corner. And that young, would-be "bully" shriveled up in his seat till he was scarcely visible, and did not utter a word of protest even. When the girl left the train every passenger applauded her with their hands and some cheered in addition. She evidently knows what harmonicon fiends are made of.—New York Recorder.

**Proof Positive That Girls Like Antiques.**

Nothing more plainly illustrates that the girl of the period is partial to things antique than her persistent fondness for the long trained skirt. It is found on investigation that this abominable piece of drapery was invented first in England by Anne Queen of Richard II, nearly 500 years ago. This was probably the first street cleaning apparatus to be invented. This same gown should also be blamed for the large hats, those of abnormal size, with great flaring brims, intimate relatives of our fat after bonnets now in vogue. Surely this estimable woman had much to be responsible for.—Chicago Herald.

**A Woman Bohem.**

My mother can remember Betty Finch, a very masculine sort of woman, being the "lubber" at Holy Trinity church in the year 1810. She walked very majestically along the aisles during divine service, armed with a great long stick like a fishing rod, which had a bob fastened to the end of it, and when she caught any sleeping or talking they got a "nudge."—Notes and Queries.

## SAVED ON A JOURNEY.

LESSON XI, THIRD QUARTER, INTERNATIONAL SERIES, SEPT. 11.

Text of the Lesson, Acts viii, 26-40. Memory Verses, 35-38—Golden Text, John iii, 36—Commentary by the Rev. D. M. Stearns.

26. "And the angel of the Lord spake unto Philip, saying, Arise and go toward the south, unto the way that goeth down from Jerusalem unto Gaza, which is desert." What an honor to have a special heavenly messenger bring one a message right from God. Compare Math. i, 20, ii, 13, 19, Luke i, 11, 28, Acts xii, 7, xviii, 33. When we read the Bible we must accept it as a message to our souls as well as to an angel or God Himself spoke to us.

27. "And he arose and went—and behold a man of Ethiopia, from the south, sitting in his chariot, read Esaias the prophet." He came from Egypt to Jerusalem to worship the true God, and on his journey home was reading the book of God. He was an earnest seeker after light and truth and God observed him, for his eyes ran to and through the whole earth to find just such people (II Chron. xvi, 9). Compare Acts x, 30, 31, 32, 33, 34, 35, 36, 37, 38. Remember that God will see to it that all who seek him shall find him.

28. "Then the Spirit said unto Philip, go near and join thyself unto this chariot." As to the Spirit speaking to the apostles and to the church, see Acts i, 16, 26, 27, 31, 32, 33, 34, 35, 36, 37, 38. It is possible for the Spirit to speak to the voice of the Spirit and be guided by him.

29. "And Philip ran thither to him, and heard him read the prophet Esaias, and said, Understandest thou what thou art reading?" See what Philip God will take to cause one to understand His word when He sees that desire in our hearts. Consider how Jesus opened the Scriptures to the two men with whom He walked, and how afterward in the midst of the eleven He opened them to understand the Scriptures (Luke xxiv, 32, 45).

30. "And he said, how can I, except thou shalt guide me? And he desired Philip that he would come up and sit with him." The church was a great man riding in his chariot. Philip probably had the appearance of a wayward traveler, yet see his cordial reception. Many messages are unspoken and letters unwritten that only God can read. The Scriptures have been revealed to us, but we have not read them. We must obey and not be afraid (Mark v, 36).

31. "He was led as a sheep to the slaughter, and like a lamb dumb to the shearer, so opened He not His mouth." This was the Scripture which he read (Isa. liii, 7), and refers to the suffering of Jesus when led before the high priest and crucified. There are similar words in Jer. xli, 19, for Jeremiah was taken captive, and in Luke xii, 1, for Jesus was taken captive. There is a time to be silent even when suffering (Ps. xxxviii, 13, 14).

32. "In His humiliation He opened not His mouth; He was as a lamb that is led to the slaughter, and as a dumb sheep that is led to the slaughter." There was no justice done to Him; there was no reward for His suffering. He was led to the slaughter, and as a dumb sheep that is led to the slaughter. There was no justice done to Him; there was no reward for His suffering. He was led to the slaughter, and as a dumb sheep that is led to the slaughter.

33. "Then Philip opened his mouth, and began at the same Scripture, and preached unto him Jesus." Philip did not waste time on the style of the prophet, nor on the possibility of another Isaiah being the author of this Scripture, neither did he waste time on the question of whether or not the Scriptures were true, but he went straight to the heart of the matter, and preached unto him Jesus.

34. "And he said, I have heard thee, Philip, and now I believe; and he said, Philip, what dost thou desire? And he said, I desire to be baptized." "I pray thee, I desire to be baptized." This was the church's question to him. He was led to the slaughter, and as a dumb sheep that is led to the slaughter. There was no justice done to Him; there was no reward for His suffering. He was led to the slaughter, and as a dumb sheep that is led to the slaughter.

35. "Then Philip baptized him." Philip did not waste time on the style of the prophet, nor on the possibility of another Isaiah being the author of this Scripture, neither did he waste time on the question of whether or not the Scriptures were true, but he went straight to the heart of the matter, and preached unto him Jesus.

36. "And he said, I have heard thee, Philip, and now I believe; and he said, Philip, what dost thou desire? And he said, I desire to be baptized." "I pray thee, I desire to be baptized." This was the church's question to him. He was led to the slaughter, and as a dumb sheep that is led to the slaughter. There was no justice done to Him; there was no reward for His suffering. He was led to the slaughter, and as a dumb sheep that is led to the slaughter.

37. "Then Philip baptized him." Philip did not waste time on the style of the prophet, nor on the possibility of another Isaiah being the author of this Scripture, neither did he waste time on the question of whether or not the Scriptures were true, but he went straight to the heart of the matter, and preached unto him Jesus.

38. "And he said, I have heard thee, Philip, and now I believe; and he said, Philip, what dost thou desire? And he said, I desire to be baptized." "I pray thee, I desire to be baptized." This was the church's question to him. He was led to the slaughter, and as a dumb sheep that is led to the slaughter. There was no justice done to Him; there was no reward for His suffering. He was led to the slaughter, and as a dumb sheep that is led to the slaughter.

39. "Then Philip baptized him." Philip did not waste time on the style of the prophet, nor on the possibility of another Isaiah being the author of this Scripture, neither did he waste time on the question of whether or not the Scriptures were true, but he went straight to the heart of the matter, and preached unto him Jesus.

40. "And he said, I have heard thee, Philip, and now I believe; and he said, Philip, what dost thou desire? And he said, I desire to be baptized." "I pray thee, I desire to be baptized." This was the church's question to him. He was led to the slaughter, and as a dumb sheep that is led to the slaughter. There was no justice done to Him; there was no reward for His suffering. He was led to the slaughter, and as a dumb sheep that is led to the slaughter.

## RINGING WORDS

From a Prominent and Eminent Divine.

Statements That Are True and Straight to the Point.

Read What He Says, for His Words Are of Great and Peculiar Interest.

No one knows better than the faithful pastor the great value of sound physical and nerve strength. The strain upon brain and nerve, the physical exhaustion following excessive work, the responsibilities and sympathies with afflictions and the myriad cares make the earnest preacher's duties arduous and wearing in the extreme.

We do not wonder, therefore, at the strong and ringing words of praise which the eminent divine, Rev. C. D. R. Meacham, gives that most wonderful of medicines, Dr. Greene's Nervura blood and nerve remedy. When he was run down in health, and his blood badly impaired, he was restored to sound and vigorous health by this marvelous health restorer.

Here are the exact facts in his own words: "I am very glad to say in regard to Dr. Greene's Nervura blood and nerve remedy, that I have been greatly benefited by it. It has been a great deal of help to me, and my nervous system was greatly improved. Dr. Greene's medicine gave me much relief."

Rev. C. D. R. MEACHAM, Pastor Baptist Church, Townsend, Vt. "I have been a great deal of help to me, and my nervous system was greatly improved. Dr. Greene's medicine gave me much relief."

There isn't a whisper now of any nomination for the head of the state ticket except that of Mr. Halle. There is a good deal of talk, however, over the second place. There is no doubt that Mr. Halle will run well, and the fact that so many want to be his running mate speaks well for the confidence other people have in the success of the Republicans in Massachusetts.

The first name to be added to the list of lieutenant gubernatorial candidates is that of Mr. Samuel C. Darling of Somerville, who has made a good record in the House, is a successful practicing lawyer of middle age, a good platform speaker, and a pronounced temperance man. His friends have formally put him in the field. It seems to be considered that Lawyer James Carroll of Springfield is to be the second man on the Democratic state ticket. As the Probationists must put their ticket in the field, this year, by nomination papers, they may not call a state convention. Perhaps a tendency to tighten party lines and prevent struggling.

The Democratic "literary bureau" devoted its energies, last week, in its advertising "announcement" to considering how the tariff on wool worked hardship on our people by comparing them to the shoddy manufacturers. Now against the assertions of this anonymous "advertiser," let us put some facts as embodied in the Memorial of the National Association of Manufacturers, recently presented against the passage of the bill to put wool on the free list, and reduce the duties on woolen goods. This memorial was presented in the Senate by Mr. Aldrich, July 6.

"The woolen goods industry in this country was larger in comparison with the m and cotton goods world, than at present."

HAILE FOR FIRST, BUT WHO FOR SECOND PLACE?

Answer to the Democratic Cry for Free Wool.

(From Our Special Boston Correspondent.)

Developments in politics for the past week have been right along the usual line and entirely devoid of all sensation. There has been a great deal of hard, earnest, routine work already done by Chairman Draper and Secretary Rutesky and their faithful assistants in the various committees; and it will all tell when the final struggle comes on. They are full of hope and confidence, but insist upon the necessity of just as hard work as can be put in. A majority isn't enough, unless it is a majority of the very last man available. The aim of the campaign will be to convince the voters that the Republican principles are correct and best for the country; and then be sure to get to the polls every man who so believes. Organization and systematic work are the only methods by which this result can be secured.

There isn't a whisper now of any nomination for the head of the state ticket except that of Mr. Halle. There is a good deal of talk, however, over the second place. There is no doubt that Mr. Halle will run well, and the fact that so many want to be his running mate speaks well for the confidence other people have in the success of the Republicans in Massachusetts.

The first name to be added to the list of lieutenant gubernatorial candidates is that of Mr. Samuel C. Darling of Somerville, who has made a good record in the House, is a successful practicing lawyer of middle age, a good platform speaker, and a pronounced temperance man. His friends have formally put him in the field. It seems to be considered that Lawyer James Carroll of Springfield is to be the second man on the Democratic state ticket. As the Probationists must put their ticket in the field, this year, by nomination papers, they may not call a state convention. Perhaps a tendency to tighten party lines and prevent struggling.

The Democratic "literary bureau" devoted its energies, last week, in its advertising "announcement" to considering how the tariff on wool worked hardship on our people by comparing them to the shoddy manufacturers. Now against the assertions of this anonymous "advertiser," let us put some facts as embodied in the Memorial of the National Association of Manufacturers, recently presented against the passage of the bill to put wool on the free list, and reduce the duties on woolen goods. This memorial was presented in the Senate by Mr. Aldrich, July 6.

"The woolen goods industry in this country was larger in comparison with the m and cotton goods world, than at present."

Under the postal regulations of the United States and the rulings of the highest courts a letter does not belong to the person to whom it is sent until it is delivered to him.

The writer has a right to reclaim and regain possession of it, provided he can prove to the satisfaction of the postmaster at the office from which it was sent, that he was the writer of it.

Even after the letter has arrived at the office which is its destination, and before it has been delivered to the person to whom it is addressed, it may be recalled by the writer by telegraph through the mailing office.

The regulations of the postoffice department of course require that the utmost care shall be taken by the postmaster at the office of mailing to ascertain that the person who desires to withdraw the letter is really the one who is entitled to do so, and the postmaster is responsible for his error if he delivers the letter to an impostor or an unauthorized person.

The vital principle in our political system lies at the bottom of this matter. In this country the state is the servant and agent of the citizen—not his master. It remains merely his agent throughout the transmission of a letter. The state may prescribe regulations under which its own servants may carry a message for the citizen, but it cannot shirk its responsibility to him—YOUTH'S Companion.

Abandoned Farms a Blessing.

So far as has come under our notice, the well known general abandonment of hill farms in New England is almost universally bewailed. Though a sentiment of slight melancholy must usually attach to an abandoned homestead, we take a brighter view of the conditions, since these are to the advantage of the country at large. Abandoned hill farms especially will be allowed to grow up forests, and these afford their chief advantage to climate when they exist in elevated situations.

In such positions they not only serve to prevent evaporation of the moisture stored in the soil from rain-falls, but are more influential as rain producers than in equal extent on the lands. In such elevated positions they are generally regarded as preventives of lightning, as they serve to quietly equalize the electrical conditions of the atmosphere and earth, especially in the seasons of thunder storms.

The abandonment of these hill farms is the opportunity, since they may be purchased at a low figure, rescued from the greed of the farmer in cord wood and preserved forever to please the eye and to improve the climate of the country about.—Practical Electricity.

The Welsh Tongue.

The author of "Yorkshire Folk Talk" tells an amusing story of an English bishop's struggles to master the Welsh tongue. He had been appointed to the Welsh see of St. David, and on taking up his abode in Wales engaged a native Welsh scholar to give him instruction in the language. The pronunciation, and especially the II, bothered the bishop, and the Welshman was almost at his wit's end to explain the lingual process by which the formidable sound was to be uttered.

At last a bright thought struck him, and being very obsequious in manner he thus addressed the bishop: "Your lordship must please put your apostolic tongue to the roof of your apostolic mouth and then hiss like a goose."

## The Woburn Journal

FRIDAY, SEPT. 16, 1892.

The Journal is for sale at the stores of Sparrow Horton, 105 Main street, Charles E. Brown, 106 Main street, John Cummings, 23, Commingville, Samuel E. Wyman, W. A. Hanson, North Woburn, and at G. P. Brown's Winchester.

**SPECIAL NOTICE.**  
All advertisements to insure insertion in this paper, must be handed in as early as 10 o'clock on Thursday forenoon.

FOR PRESIDENT.  
BENJAMIN HARRISON, . . . of Indiana  
FOR VICE PRESIDENT.  
WHITELAW REID, . . . of New York

## CLEVELAND IS COMING!

The Journal is able to state on authority that Ex-President Cleveland has accepted the city's invitation to be present at the 250th Anniversary Celebration next month. It is not known as yet whether he will be here on Thursday, October 6th, but he will certainly arrive in season on Friday morning to participate in the parade, and will attend the banquet in the afternoon at which he will speak. This is great news for Woburn.

After the visit of Ex-Mayors Bean and Johnson to Gray Gables the general impression hereabouts was that Mr. Cleveland could not be induced to accept our hospitality. The reticence of the committee as to the result of their visit seemed to warrant that inference. But it turns out that they were not only very cordially received by the Ex-President, but that after full consideration he decided to come, and his letter of acceptance is said to be in the hands of the committee.

The announcement of the fact that Mr. Cleveland is to be our guest will attract general attention to our anniversary throughout the county and greatly add to the eclat of the occasion. We congratulate the Committee on Invitations for the work they have done. We have met a good many people on the street who seemed to know that the great Democratic Ex-President would not be interested in the celebration. It turns out that quite the contrary is true, and we are glad of it.

## SENATORIAL CANDIDATE.

Mr. Enoch Foster, a prominent citizen of Tewksbury well and favorably known in Woburn, is a candidate for the Republican nomination in the this Senatorial District with more than an even chance, his friends say, of winning the prize. He has good backing from active men all over the District.

Mr. Foster was strongly supported in the convention at which Capt. E. F. Wier was nominated last year and won the respect of the delegates by the fair, judicious manner in which his canvass was conducted. Capt. Wier got the nomination however and Mr. Foster and his friends turned in and lustily worked for the election of the nominee.

Mr. Foster has the hearty support of Tewksbury Republicans, which speaks volumes for his fitness for the position his friends are seeking for him. The approval of ones neighbors and townspeople is the best recommendation a man can have, whether in politics or business.

## HAILE AND WALCOTT.

The Republicans of Massachusetts held their state convention in Boston last Wednesday.

William H. Haile of Springfield was nominated for Governor; Roger Walcott of Boston, for Lieutenant Governor; A. E. Pillsbury for Attorney General; George A. Marden for Treasurer; John W. Kimball, Auditor; W. M. Olin, Secretary of State.

That ticket will be elected—sure!

## FOR CONGRESS.

The Republicans of the 5th Congressional District held their convention at Lowell last Tuesday. W. S. Knox of Lawrence and Francis H. Appleton of Peabody were the principal candidates.

Mr. W. S. Knox was nominated on the first ballot—45 to 33. Let us go to work and elect him.

## A DINNER.

The Republican Editorial Association of Massachusetts will partake of a dinner at Young's Hotel, Boston, tomorrow at which the several candidates nominated at the Republican State convention on Wednesday are expected to be present and deliver speeches.

The managers mean to make it a memorable occasion.

## MAINE ALL RIGHT.

The Maine State election was held last Monday. Henry B. Cleaves, the Republican candidate for Governor, was elected by about 12,000 majority. The four Republican candidates for Congress—Reed, Dingley, Milliken and Boutelle—were elected.

We wish it were possible to induce the free traders of Woburn to read and carefully consider an article on the 4th page of the Journal, this week, entitled "Tariff and Wages." It embodies the recent report of Labor Commissioner Peck of New York and is an argument in support of the McKinley bill that cannot be overturned or in the least faded by the sophistries of the enemies of that great American measure.

## THE ROUTE.

Capt. H. N. Conn, Chief of Staff, says an erroneous idea respecting the route of the great Parade as laid out by Chief Marshal Capt. Wier prevails in the community.

Instead of the business part of the city being ignored, as popularly supposed, the procession will march through it twice.

That will do, won't it?

—Mr. Avah Buckman was 70 years old last Monday and carries himself as sprightly as a man of 55. But although well preserved and hearty, Mr. Buckman was reminded by the operations of the painters of the Orthodox church that he was not quite as smart as he was in 1860, 32 years ago, when one day that year he sat on the tip-top of the steeple (minus the gilt ball) of that church "and viewed the landscape o'er," a feat which he says he would not undertake to repeat today for all Woburn is worth, although he felt very proud of it then. Mr. Buckman is one of our solid business men, but he isn't scaling church towers now days "to any alarm" extent, "as A. Ward used to say."

—Mr. E. G. Place of the leather firm of G. & E. G. Place of this city has been appointed assignee of the firm of Perry, Converse & Co., of South street, Boston, with tannery at Wilmington. F. W. & E. L. Perry of Winchester were members of the failed firm whose liabilities are stated at \$75,000.

—Mr. Charles W. Daley, the proprietor of one of the largest and best live stables in East Cambridge, has a card in this week's JOURNAL, at which attention is called. Will our celebration committees, those who are to take part in the parade, and everybody else who may want horses and carriages, remember Mr. Daley's stable?

—The John Thomas Comic Opera Company gave "The Village Doctor" at Lyman Hall last Tuesday evening to an audience that anybody might well be proud of. The performance was worthy of the hearty applause it received, and all left the hall fully convinced that they had received their money's worth.

—Why don't the Woburn Democracy nominate such men as ex-Mayor Bean, Charles A. Jones, James Skinner, George Buchanan, or men like them?

—Capt. Charles S. Converse and Mrs. Converse have been visiting friends here this week. The Captain received a cordial greeting from everybody he met. Capt. and Mrs. Converse are residing at Lyman for the present.

—As soon as possible the Executive Committee of the Celebration will prepare a full and complete programme of the Celebration and cause the same to be published in the local papers in order that the public may know just what the grand affair is going to be.

—Mr. Frank W. Gilreath, son of Mr. John Gilreath, Superintendent of the Woburn Gaslight Co., is a civil engineer in the employ of the Lehigh Valley Railroad Co., and stands high in his profession. Besides that, he is a photographer artist of no mean abilities judging from a set of pictures of scenes near Mahanoy City, Pa., taken for his company and recently shown in this city.

—Mr. George E. Fowle will attend the National Encampment, G. A. R., at Washington with Post 185 of Lowell. Dr. Frank W. Graves, Commander of Woburn Post 181, and a member of the Staff of the Commander-in-chief, will be there in good season. Likewise Capt. William Matthews, Mrs. George W. Duran, C. Alonzo Pierce, Col. A. L. Richardson and Mr. and Mrs. Samuel Leeds.

—Mr. Avah Buckman was 70 years old last Monday and carries himself as sprightly as a man of 55. But although well preserved and hearty, Mr. Buckman was reminded by the operations of the painters of the Orthodox church that he was not quite as smart as he was in 1860, 32 years ago, when one day that year he sat on the tip-top of the steeple (minus the gilt ball) of that church "and viewed the landscape o'er," a feat which he says he would not undertake to repeat today for all Woburn is worth, although he felt very proud of it then. Mr. Buckman is one of our solid business men, but he isn't scaling church towers now days "to any alarm" extent, "as A. Ward used to say."

—The Annual Tournament of the Woburn Lawn Tennis Club will be held on the Mt. Pleasant Lawn Tennis Association grounds tomorrow, Saturday, at 2 p. m. Entrance fee 50 cents.

—Mrs. Cotton of No. 7 Scott st. sent a beautiful bunch of China asters to the JOURNAL office last Saturday with which the Editor was greatly pleased, and for which he returns thanks.

—The Board of Health deserve to be warmly commended for the prompt and efficient measures they have adopted to ward off the cholera this fall. We think the sanitary condition of the city is safe in their hands.

—C. Willard Smith has a new delivery team throughout and it is a daisy. With his big, handsome plate glass front, fine stock, and new team Mr. Smith is prepared to do business at the old stand in good shape.

—The Journal is loaded to the gunwales with live politics this week. It is a very week. Our Special Boston Correspondent, "A. M. B.," is putting in some big licks for the Tariff, Reciprocity, Sound Money and Harrison.

—The Democratic king-pin of Woburn is trying to secure the nomination of Lawyer George W. Norris for one of the Representatives to the General Court from the 14th District. But the Moreland wing have a keen eye on his movements.

—Ernest Hartwell, who had one of his legs broken by being thrown from a wagon on the day of the Forepaugh circus here, made his first appearance last week since the accident last Tuesday. He was looking prime and happy to get around again.

—Mr. W. Leeman is putting the office, cafe and other rooms of the Central House into fine shape for the great Celebration. He is one of the best painters and decorators in this city and that is why he has been employed to put the JOURNAL Building into a presentable condition, outside and in, for the coming Event. Merit wins, and that is the reason Mr. Leeman has his hands full of business all the time.

—Boston Globe: Of the members of the High School Class of '92, Miss Thurston who studied in Boston, Miss Whitcomb who is in Wallingford, Mr. Jaquith to the Institute of Technology, Misses Tidd and Lewis will commence as teachers in the public schools of this city, Miss McMorrow will attend the State Normal School at Salem, Miss Patten will also take a Normal course. Mr. Hartwell will go to Williams College, and Mr. Young a Business College.

—Mr. Waterman Brown had a cholera experience in 1846 when he was in the U. S. Navy. One night in the summer of that year the 71st ship Columbus, on which he served, ran into Manila, a port in the East Indies, and in the morning it was discovered that 49 of the men on board had died of cholera during the night. Mr. Brown was attacked by the dreaded disease but was saved for some other fate. The man-of-war was not long in getting away from that port.

—J. Henry Huthings, M. D. Ophthalmic and Aural Surgeon, devotes special attention to diseases of the Eye, Ear, Throat and Nose. Glasses fitted, and efforts of refraction corrected. Office, 516 Main street. Hours, 9 to 9 p. m. Boston office days, Monday, Wednesday, and Saturday, 2 to 6 p. m. 126 Columbus Ave.

—Painting the Steeple. Last Tuesday Mr. Charles Howland of Stoughton, Mass., was engaged to paint the steeple of the Orthodox Baptist and Unitarian meeting houses in this city, preparatory to the great Anniversary Celebration, went up and painted the tip-top piece on the spire of the former edifice.

—It looked to the numerous gatherings of uppers like a very perilous piece of business.

—For the painting of that bit of wood other parties added \$100 to their estimates on the job, and the steeple was to be painted.

—He told the committee he would as soon work on the top of the steeple as on the plinths and baseboards.

—Mr. Howland always does that sort of work with his own hands for if anybody is to fall and break his neck he prefers it to be done by himself.

—From the ground to the narrow platform on which Mr. Howland stood to go to the steeple, a plank was laid.

—A common sized man don't look as big as an elephant at that distance from the skyward.

—When he came to the top of the steeple he was as steady and unconcerned as if he were as big as an elephant.

—He worked away steadily and unconcerned as if he were as big as an elephant.
